- *NRC’s Clearance Officer*: A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC’s Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “Nuclear Material Events Database (NMED) for the Collection of Event Report, Response, Analyses, and Follow-Up Data on Events Involving the Use of Atomic Energy Act (AEA) Radioactive Byproduct Material.”

The NRC hereby informs potential respondents that an agency may not

conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on September 10, 2018 (83 FR 45695).

1. *The title of the information collection*: “Nuclear Material Events Database (NMED) for the Collection of Event Report, Response, Analyses, and Follow-up Data on Events Involving the Use of Atomic Energy Act (AEA) Radioactive Byproduct Material.”

2. *OMB approval number*: 3150–0178.

3. *Type of submission*: Extension.

4. *The form number if applicable*: NA.

5. *How often the collection is required or requested*: Agreement States are requested to provide copies of licensee nuclear material event reports electronically or by hard copy to the NRC within 30 days of receipt from their licensee. In addition, Agreement States are requested to report events that may pose a significant health and safety hazard to the NRC Headquarters Operations Officer within 24 hours of notification by an Agreement State licensee.

6. *Who will be required or asked to respond*: Current Agreement States and any State receiving Agreement State status in the future.

7. *The estimated number of annual responses*: 450.

8. *The estimated number of annual respondents*: 39.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request*: 720 hours.

10. *Abstract*: NRC regulations require NRC licensees to report incidents and overexposures, leaking or contaminated sealed source(s), release of excessive contamination of radioactive material, lost or stolen radioactive material, equipment failures, abandoned well logging sources and medical events. Agreement State licenses are also required to report these events to their individual Agreement State regulatory authorities under compatible Agreement State regulations. The NRC is requesting that the Agreement States provide information to NRC on the initial notification, response actions, and follow-up investigations on events involving the use (including suspected theft or terrorist activities) of nuclear materials regulated pursuant to the Atomic Energy Act. The event information should be provided in a uniform electronic format, for assessment and identification of any facilities/site specific or generic safety concerns that could have the potential

to impact public health and safety. The identification and review of safety concerns may result in lessons learned, and may also identify generic issues for further study which could result in proposals for changes or revisions to technical or regulatory designs, processes, standards, guidance or requirements.

Dated at Rockville, Maryland, on March 11, 2019.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–454 and 50–455; NRC–2018–0186]

Exelon Generation Company, LLC; Byron Station, Unit Nos. 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; withdrawal by applicant.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Exelon Generation Company, LLC (Exelon) to withdraw its application dated August 10, 2018, as supplemented by letter dated December 21, 2018, for proposed amendments to Facility Operating License Nos. NPF–37 and NPF–66, issued to Exelon for operation of the Byron Station, Unit Nos. 1 and 2. The proposed amendment would have extended the Completion Time for Technical Specification 3.8.1, “AC Sources-Operating,” Required Action A.2, on a one-time, temporary basis, based on a risk-informed approach.

DATES: March 14, 2019.

ADDRESSES: Please refer to Docket ID NRC–2018–0186 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking website*: Go to <http://www.regulations.gov> and search for Docket ID NRC–2018–0186. Address questions about NRC Docket IDs in *Regulations.gov* to Krupskaya Castellon; telephone: 301–287–9221; email: Krupskaya.Castellon@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov.

- *NRC's PDR*: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Joel S. Wiebe, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6606, email: Joel.Wiebe@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC has granted the request of Exelon (the licensee) to withdraw its August 10, 2018, application (ADAMS Accession No. ML18226A097), as supplemented by letter dated December 21, 2018 (ADAMS Accession No. ML18355A699) for proposed amendments to Facility Operating License Nos. NPF-37 and NPF-66, issued to Exelon for operation of the Byron Station, Unit Nos. 1 and 2, located in Ogle County, Illinois.

The proposed amendment would have extended the Completion Time for Technical Specification 3.8.1, "AC Sources-Operating," Required Action A.2, on a one-time, temporary basis based on a risk-informed approach. The extended Completion Time would have allowed the Byron Station, Unit Nos. 1 and 2, to continue operation for the duration of the extended Completion Time in the event a second station auxiliary transformer failed in Unit No. 2.

Exelon's August 10, 2018, request was published in the **Federal Register** on August 31, 2018 (83 FR 44677). Exelon requested to withdraw the request by letter dated February 8, 2019 (ADAMS Accession No. ML19039A272).

Dated at Rockville, Maryland, on March 11, 2019.

For the Nuclear Regulatory Commission.

Joel S. Wiebe,

Senior Project Manager, Plant Licensing Branch III, Division of Operating Reactors Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-443-LA-2]

In the Matter of NEXTERA Energy Seabrook, LLC (Seabrook Station, Unit 1); Notice of Appointment of Adjudicatory Employees

Pursuant to 10 CFR 2.4, notice is hereby given that Mr. Kamal Manoly, Senior Technical Advisor for Structural Mechanics, Office of Nuclear Reactor Regulation, and Dr. Jim Xu, Senior Technical Advisor for Structural and Seismic Analysis, Office of Nuclear Regulatory Research, have been appointed as Commission adjudicatory employees within the meaning of section 2.4, to advise the Commission regarding issues relating to the pending Emergency Petition by C-10 Research and Education Foundation for Exercise of Commission's Supervisory Authority to Reverse No Significant Hazards Determination and Immediately Suspend License Amendment and License Renewal Decisions filed on February 13, 2019. Mr. Manoly and Dr. Xu have not previously performed any investigative or litigating function in connection with this or any related proceeding. Until such time as a final decision is issued in this matter, interested persons outside the agency and agency employees performing investigative or litigating functions in this proceeding are required to observe the restrictions of 10 CFR 2.347 and 2.348 in their communications with Mr. Manoly and Dr. Xu.

It is so ordered.

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland, this 8th day of March 2019.

Denise L. McGovern,

Acting Secretary of the Commission.

BILLING CODE 7590-01-P

OVERSEAS PRIVATE INVESTMENT CORPORATION

Procedure for Submission of Invoices for Over-Age Contracts

AGENCY: Overseas Private Investment Corporation (OPIC).

ACTION: Notice of intent to execute quick closeout procedures.

SUMMARY: The Overseas Private Investment Corporation (OPIC) currently has contracts that are considered over-age and developed procedures that would enable the Agency to closeout these elapsed

actions in an efficient and cost-effective manner. OPIC seeks to facilitate the closeout of these actions by requesting all OPIC contractors with contracts identified on this list submit any outstanding invoices.

DATES: For the contract actions listed herein, interested parties must submit all outstanding invoices within 60 days after publication of this notice.

ADDRESSES: Mail all comments, questions or invoices in response to this notice to Anthony Terrell, Overseas Private Investment Corporation, 1100 New York Avenue NW, Washington, DC 20527. See **SUPPLEMENTARY INFORMATION** for other information about submissions.

FOR FURTHER INFORMATION CONTACT:

Anthony Terrell, Office of Acquisitions, Overseas Private Investment Corporation, 1100 New York Ave. NW, Washington, DC 20527, 202-357-3960; anthony.terrell@opic.gov.

SUPPLEMENTARY INFORMATION: The

Overseas Private Investment Corporation (OPIC) currently has contracts that are considered over-age, as the period of performance or final delivery date of these actions have expired and the standard time allowed for contract file closeout has elapsed. OPIC developed procedures that would enable the Agency to closeout these elapsed actions in an efficient and cost-effective manner. These procedures required the Agency to identify those expired contracts that could more easily be closed out based on certain criteria.

The identified contracts not only pose a significant burden to various acquisition and financial systems, but they also impede OPIC's ongoing efforts to strengthen and modernize its financial management practices. One of these modernization practices involves transitioning to a new contract writing system, which involves the conversion of financial data for all OPIC contract actions that are active. The procedures OPIC developed to significantly reduce the number of expired contracts with unliquidated funds will enable OPIC to expeditiously close these actions. OPIC developed the procedures using risk-based management principles by first identifying and classifying open, expired contracts as low-risk based on the following criteria: (i) The contract has a period of performance that expired prior to Sept. 30, 2016; (ii) the contract expired and the additional time allowed for contract file closeout under FAR 4.804-1(a) has elapsed; and (iii) the contract had no invoice or payment activity within the past 12 months.

Notwithstanding OPIC's intention to expeditiously closeout the actions
