

Aquaculture: To advance understanding of the interactions of aquaculture and the environment; to increase the supply of nutritious, safe, high-quality domestic seafood; develop and use socioeconomic and business research to advance domestic aquaculture. NOS proposes to estimate the costs associated with reported *Vibrio* illnesses, which is a demand expressed in a number of industry settings. Washington State Department of Health expressed desire for this information in order to more accurately plan their budgets.

Management agency staff, restaurant staff, and oyster farm staff will be asked to help develop a model of what kind of expenditures accrue during a response to a reported *Vibrio* illness and estimate the value of those expenditures. The results of the project will be used to develop a model to estimate the full suite of costs of seafood-borne illness and will provide an estimate for agency and business budget planners.

Affected Public: Management agency staff, oyster farm staff, restaurant staff.

Frequency: Once.

Respondent's Obligation: Voluntary.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

For the original Permit No. 16632, in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), NMFS determined that the activities proposed were

consistent with the Preferred Alternative in the Final Programmatic Environmental Impact Statement for Hawaiian Monk Seal Recovery Actions (NMFS 2014), and that issuance of the permit would not have a significant adverse impact on the human environment. The minor amendment to Permit No. 16632-02 extends the duration of the permit for one year, but does not change any other terms or conditions of the permit and no additional NEPA analysis was required.

As required by the ESA, as applicable, issuance of these permit was based on a finding that such permits: (1) Were applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) are consistent with the purposes and policies set forth in Section 2 of the ESA.

Authority: The requested permits have been issued under the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the

regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226), as applicable.

Dated: March 18, 2019.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Reporting Requirements for Commercial Fisheries Authorization under Section 118 of the Marine Mammal Protection Act.

OMB Control Number: 0648–0292.

Form Number(s): None.

Type of Request: Regular (extension of currently approved collection).

Number of Respondents: 200.

Average Hours per Response: 0.25.

Burden Hours: 50.

Needs and Uses: This request is for an extension of a currently approved information collection. Reporting injury to and/or mortalities of marine mammals is mandated under Section 118 of the Marine Mammal Protection Act. This information is required to determine the impacts of commercial fishing on marine mammal populations. This information is also used to categorize commercial fisheries into Categories I, II, or III. Participants in the first two categories must be authorized to take marine mammals, while those in Category III are exempt from that requirement. All categories must report injuries or mortalities on a National Marine Fisheries Service form.

Affected Public: Business or other for-profit organizations; Individuals or households; State, local, or tribal government.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Region Amendment 80 Program.

OMB Control Number: 0648–0565.

Form Number(s): None.

Type of Request: Regular. (Revision and extension to a previously approved collection).

Number of Respondents: 25.

Average Hours per Response: 2 hours each for Application for Amendment 80 (A80) Quota Share (QS), Application for A80 Cooperative Quota (CQ) Permit, Application for A80 Limited Access Fishery Permit, Application to Transfer A80 QS, Application for A80 Vessel Replacement, and Application for Inter-cooperative Transfer of A80 CQ; 4 hours for A80 appeals letter; 5 minutes for Flatfish Exchange Application.

Burden Hours: 20 hours.

Needs and Uses: This is an extension and a revision of a currently approved information collection that contains applications for permits and transfers necessary to manage the Amendment 80 (A80) Program. The A80 Program is a limited access privilege program that allocates several Bering Sea and Aleutian Islands non-pollock trawl groundfish species among trawl fishery sectors and facilitates the formation of harvesting cooperatives in the non-American Fisheries Act trawl catcher/processor sector.

This collection contains applications used by persons to apply for A80 QS, to transfer A80 QS, and to apply for an A80 limited access fishery permit; by A80 cooperatives to apply for CQ and transfer CQ; by cooperatives or CDQ groups to exchange CQ for one eligible flatfish species with CQ of a different eligible flatfish species; and by A80 vessel owners to replace their vessels.

The National Marine Fisheries Service uses information from this collection to establish eligibility to receive A80 QS, CQ, and permits; transfer and assign harvest quota; replace vessels used in the A80 Program; determine A80 species initial total allowable catch assignments; determine which vessels must be tracked for catch accounting; and review ownership and control information to ensure that QS and CQ use caps are not exceeded.

Affected Public: Business or other for-profit organizations; Individuals or households.

Frequency: Annually; on occasion.

Respondent's Obligation: Mandatory.
