

Benefits Act information collection. This information collection is essential to the mission of OWCP's Division of Coal Mine Workers' Compensation, which administers the BLBA. The statute grants the Department authority to authorize and regulate coal mine operators who wish to self-insure their BLBA liabilities. This information collection would provide OWCP with sufficient information to determine whether a coal mine operator should be (or continue to be) authorized to self-insure. The information would also allow OWCP to determine the security amount a coal mine operator must deposit to guarantee that it will be able to meet its BLBA liabilities. The Black Lung Benefits Act authorizes this information collection. See 30 U.S.C. 933.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the **Federal Register** on October 30, 2017.

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201901-1240-008. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

DEPARTMENT OF LABOR

Office of Workers' Compensation Programs

Division of Coal Mine Workers' Compensation; Proposed Extension of Existing Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Office of Workers' Compensation Programs is soliciting comments concerning a proposed extension of the existing collection: Disclosure of Medical Evidence. A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

DATES: Written comments must be submitted to the office listed in the

addresses section below on or before May 21, 2019.

ADDRESSES: You may submit comments by mail, delivery service, or by hand to Ms. Yoon Ferguson, U.S. Department of Labor, 200 Constitution Ave. NW, Room S-3323, Washington, DC 20210; by fax (202) 354-9647; or by Email to ferguson.yoon@dol.gov. Please use only one method of transmission for comments (mail/delivery, fax, or Email). Please note that comments submitted after the comment period will not be considered.

SUPPLEMENTARY INFORMATION:

I. Background

The Department's regulations implementing the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*, require parties to exchange all medical information about the miner they develop in connection with a claim for benefits, including information the parties do not intend to submit as evidence in the claim. See 20 CFR 725.413. The rule helps protect a miner's health, assist unrepresented parties, and promote accurate benefit determinations.

The potential parties to a BLBA claim include the benefits claimant, the responsible coal mine operator and its insurance carrier, and the Director, Office of Workers' Compensation Programs (OWCP). Under this rule, a party or a party's agent who receives medical information about the miner must send a copy to all other parties within 30 days after receipt or, if a hearing before an administrative law judge has already been scheduled, at least 20 days before the hearing. The exchanged information is entered into the record of the claim only if a party submits it into evidence. The Department's authority to engage in information collection is specified in BLBA sections 413(b), 422(a), and 426(a). See 30 U.S.C. 923(b), 932(a), and 936(a). This information collection is currently approved for use through May 31, 2019.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- * enhance the quality, utility and clarity of the information to be collected; and

- * minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions:

The Department of Labor seeks approval for the extension of this currently-approved information collection. The collection is necessary to give miners full access to information about their health, assist unrepresented claimants, and reach accurate benefit determinations under the BLBA.
