ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OECA–2011–0275; FRL–9990–21–OEI]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Hydrochloric Acid Production (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Hydrochloric Acid Production (EPA ICR Number 2032.10, OMB Control Number 2060–0529), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2019. Public comments were previously requested, via the **Federal Register**, on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 25, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2011–0275, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200

BILLING CODE 6717–01–P

Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP), for Hydrochloric Acid Production (40 CFR part 63, subpart NNNNN) were proposed on September 18, 2001, promulgated on April 17, 2003, and amended on April 7, 2006. These regulations apply to existing and new hydrochloric acid (HCl) production facilities. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart NNNNN. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: Hydrochloric acid production facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart NNNNN).

Estimated number of respondents: 19 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 22,600 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,742,000 (per year), which includes \$16,000 for annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in burden and costs from the most recently-approved ICR. The adjustment decrease in burden is

due to more accurate estimates of existing and anticipated new sources, which are based on EPA's recent re-evaluation of the source category inventory as part of a proposed rulemaking and risk and technology review for 40 CFR 63, Subpart NNNNN. We have also corrected the previous assumption that existing respondents would record startup, shutdown, and malfunction events 100 times per year. Based on information received from industry in the development of the proposed risk and technology review, this assumption has been corrected to 10 times per year. Further, as a result of the decrease in existing and new sources, there is also an adjustment decrease in the number of total annual responses and the capital and operating and maintenance costs.

Courtney Kerwin,

Director, Regulatory Support Division.

Abstract: The New Source Performance Standards (NSPS) for Stationary Compression Ignition Internal Combustion Engines (40 CFR part 60, subpart IIII) apply to manufacturers, owners and operators of new stationary compression ignition (CI) internal combustion engines (ICE). New facilities include those that commenced construction, modification or reconstruction after the date of proposal. For the purposes of this subpart, the date that construction commences is the date the engine is ordered by the owner or operator. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any
