Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Semiconductor Manufacturing (40 CFR part 63, subpart BBBBB) were proposed on May 8, 2002, and promulgated on May 22, 2003. These regulations apply to existing facilities and new facilities that emit or has the potential to emit, considering controls, in the aggregate, any single

hazardous air pollutants (HAP) at a rate of 10 tons per year (tpy) or more or any combination of HAP at a rate of 25 tpy or more. New facilities include those that commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart BBBBB.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: Semiconductor manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart BBBBB).

Estimated number of respondents: 1 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 41 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$5,270 (per year), which includes \$550 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. There was no change in the capital/O&M cost.

Courtney Kerwin,

Director, Regulatory Support Division.

SUPPLEMENTARY INFORMATION:

A. Purpose

The policies implemented at FAR 37.115, Uncompensated Overtime, are based on Section 834 of Public Law 101-510 (10 U.S.C. 2331). The policies require insertion of FAR provision 52.237-10, Identification of Uncompensated Overtime, in all solicitations valued above the simplified acquisition threshold, for professional or technical services to be acquired on the basis of the number of hours to be provided.

The provision requires that offerors identify uncompensated overtime hours, in excess of 40 hours per week, and the uncompensated overtime rate for direct charge Fair Labor Standards Act-exempt personnel. This permits Government contracting officers to ascertain cost realism of proposed labor rates for professional employees and discourages the use of uncompensated overtime.

B. Public Comment

A 60-day notice was published in the **Federal Register** at 83 FR 53875 on October 25, 2018. No comments were received.

C. Annual Reporting Burden

The burden placed on offerors is the time required to identify and support any hours in excess of 40 hours per week included in their proposal or subcontractor's proposal. It is estimated that there will be 25,801 service contracts awarded annually at \$250,000 or more, of which 65 percent, or 16,771, contracts will be competitively awarded. About seven proposals will be received for each contract award. Of the total 117,397 (16,771 × 7) proposals received, only 25 percent, or 29,349, proposals are expected to include uncompensated overtime hours. It is estimated that offerors will take about 30 minutes to identify and support any hours in excess of 40 hours per week included in their proposal or subcontractor's proposal.

Respondents: 29,349.

Responses per Respondent: 1.

Total Annual Responses: 29,349.

Hours per Response: .5.

Total Burden Hours: 14,675.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Frequency: Annually.
