

TABLE 1—SPECIFIC REGULATIONS COVERED BY THE PROPOSED EXEMPTED FISHING PERMIT—Continued

	Study fleet program EFP
	§ 648.86(o) Possession limits implemented by Regional Administrator.

Any fish retained under the EFP would be delivered to Center staff upon landing. Additionally, the Center would issue a formal Biological Sampling Request to the vessel to retain fish in excess of possession limits or below the minimum size limit. This would ensure that the landed fish do not exceed any collection needs of the Study Fleet Program, as detailed below in Table 2.

All catch would be attributed to the appropriate commercial fishing quota. For a vessel fishing on a groundfish sector trip, all catch of groundfish stocks allocated to sectors would be deducted from the vessel's sector's Annual Catch Entitlement (ACE). Once the ACE for a stock has been reached in a sector, vessels would no longer be allowed to fish in that stock area unless the sector

acquired additional ACE for the stock in question. For common pool vessels, all groundfish catch would be counted toward the appropriate trimester total allowable catch (TAC). Common pool vessels would be exempt from possession and trip limits on EFP trips when directed for sampling by the Center, but would still be subject to trimester TAC closures.
