

techniques for effective nutrition communication. Under Subtitle D of the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3171–3175), the Secretary of Agriculture is required to develop and implement a national food and human nutrition research and extension program, including the development of techniques to assist consumers in selecting food that supplies a nutritionally adequate diet. Pursuant to 7 CFR 2.19(a)(3), the Secretary of Agriculture has delegated authority to CNPP for, among other things, developing materials to aid the public in selecting food for good nutrition; coordinating nutrition education promotion and professional education projects within the Department; and consulting with the Federal and State agencies, the Congress, universities, and other public and private organizations and the general public regarding food consumption and dietary adequacy.

Under Section 301 of Public Law 101–445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III) the Secretaries of USDA and HHS are directed to publish the *Dietary Guidelines for Americans* jointly at least

every five years. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public, shall be based on the preponderance of scientific and medical knowledge current at the time of publication, and shall be promoted by each Federal agency in carrying out any Federal food, nutrition, or health program. Recent editions of the *Dietary Guidelines* provide dietary advice for Americans ages 2 years and older. The Agricultural Act of 2014 mandates the addition of dietary guidance for women who are pregnant and infants and toddlers from birth to 24 months of age beginning with the 2020 edition. By translating the *Dietary Guidelines* into consumer-friendly nutrition education communication materials, CNPP and partnering agencies are able to help Americans make better or healthier food and beverage choices that can help improve health. One of the primary ways CNPP helps Americans apply the nutrition guidance in their daily lives is by developing and maintaining interactive, digital tools. CNPP’s digital resources and tools provide hands-on learning opportunities that empower Americans to think critically about their food and health choices. Maintaining

and enhancing CNPP’s digital resources and tools are key in reversing the trend of childhood obesity and building a healthier next generation.

USDA’s *MyPlate* icon is supported by a robust consumer nutrition education program to assist Americans in selecting foods for a dietary pattern that is consistent with the *Dietary Guidelines*. Ensuring that *MyPlate* resources and related tools are useful to intended audiences is critical to CNPP’s work and is a major activity included in its 5-year strategic plan in fulfillment of the Government Performance and Results Act of 1993 (31 U.S.C. 9701).
