

Area) ANSI number codes with each unit sold or marketed in the U.S. This requirement would be done in the normal course of doing business.

Section 11.35 requires that all EAS Participants are responsible for ensuring that EAS Encoders/Decoders and Attention Signal generating and receiving equipment used as part of the EAS are installed so that the monitoring and transmitting functions are available during the times the stations/systems are in operation. EAS Participants must determine the cause of any failure to receive the required tests or activations. When the EAS is not operating properly, section 11.35 requires appropriate entries be made in the station/system logs indicating why any tests were not received for all broadcast streams and cable systems. All other EAS Participants must also keep record indicating reasons why any tests were not received and these records must be retained for two years, maintained at the EAS Participant's headquarters, and made available for public inspection upon reasonable request.

Section 11.35 also requires that entries be made in the station/system logs, and records of other EAS Participants, when the EAS Encoder/Decoder becomes defective showing the date and time the equipment was removed and restored to service. If replacement of defective equipment is not completed within 60 days, an informal request shall be submitted to the District Director of the FCC field office. For DBS and SDARS providers, this informal request shall be submitted to the District Director of the FCC field office serving the area where their headquarters is located. This request must explain what steps have been taken to repair or replace the defective equipment, the alternative procedures being used while the defective equipment is out of service and when the defective equipment will be repaired or replaced.

Section 11.41 allows all EAS Participants to submit a written request to the FCC asking to be a Non-Participating National source. In addition, a Non-Participating National source that wants to become a Participating National source must submit a written request to the FCC.

Section 11.42 allows a communications common carrier to participate in the national level EAS, without charge. A communications common carrier rendering free service is required to file with the FCC, on or before July 31st and January 31st of each year, reports covering the six months ending on June 30th and December 31st respectively. These reports shall state

what free service was rendered under this rule and the charges in dollars which would have accrued to the carrier for this service if charges had been collected at the published tariff rates if such carriers are required to file tariffs.

Section 11.43 allows entities to voluntarily participate in the national level EAS after submission of a written request to the Chief, Public Safety and Homeland Security Bureau.

Section 11.51 requires that EAS equipment be operational, ready to monitor, transmit and receive EAS electronic signals. Cable and wireless cable systems, both analog and digital, can elect not to interrupt EAS messages from broadcast stations based upon a written agreement between all concerned. Furthermore, cable and wireless cable systems, both analog and digital, can elect not to interrupt the programming of a broadcast station carrying news or weather-related emergency information with state and local EAS messages based upon a written agreement between all concerned. These written agreements are contained in state and local franchise agreements.

Section 11.51 also requires all actions to be logged when manual interruption of programming and transmission of EAS messages is used. Estimates for testing are included in the estimate for section 11.61.

Section 11.52 requires all EAS Participants to monitor two EAS sources. If the required EAS sources cannot be received, alternate arrangements or a waiver may be obtained by written request to the FCC's EAS office. In an emergency, a waiver may be issued over the telephone with a follow-up letter to confirm temporary or permanent reassignment. In addition, EAS Participants are required to interrupt normal programming either automatically or manually when they receive an EAS message in which the header code contains the event codes for emergency action notification, emergency action termination and required monthly test for their state or state/county location.

Section 11.54 requires EAS Participants to enter into their logs/records the time of receipt of an emergency alert notice and an emergency action termination messages during a national level emergency.

Section 11.55 requires EAS participants to monitor their emergency alert system upon receipt of a state or local area EAS message. Stations/systems must also enter into their logs/records the time of receipt of an emergency alert message. If an SDARS licensee or DBS provider is unable to

receive and transmit state and local EAS messages, it must inform its subscribers, on its website, and in writing on an annual basis of which channels are and are not capable of supplying state and local EAS messages.

Section 11.61 requires EAS Participants to conduct periodic EAS tests. Tests of the EAS header codes, attention signal, test script and EOM code are required to be performed monthly. Tests of the EAS header codes and end of message codes are made at least once a week. National primary sources shall participate in tests as appropriate. DBS providers, Class D non-commercial educational FM stations and low power TV stations are not required to transmit this test but must log receipt of the test. The FCC may request a report of the tests of the national primary sources. In addition, entries must be made in stations/systems logs/records as previously stated.

This information is used by FCC staff as part of routine inspections of EAS Participants. Accurate recordkeeping of this data is vital in determining the location and nature of possible equipment failure on the part of the transmitting or receiving entity. Furthermore, since the national level EAS is solely for the President's use, its proper operation must be assured.

## **FEDERAL COMMUNICATIONS COMMISSION**

[OMB 3060-1000]

### **Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper

performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written PRA comments should be submitted on or before June 4, 2019. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the

information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 3060-1000.  
*Title:* Section 87.147, Authorization of Equipment.

*Form Number:* N/A.  
*Type of Review:* Extension of a currently approved collection.  
*Respondents:* Business or other for-profit entities.

*Number of Respondents:* 25 respondents; 25 responses.

*Estimated Time per Response:* 1 hour.  
*Frequency of Response:* One time and occasion reporting requirements and third party disclosure requirement.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154, 303 and 307(e) of the Communications Act of 1934, as amended.

*Total Annual Burden:* 25 hours.  
*Total Annual Cost:* N/A.

*Privacy Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* There is no need for confidentiality with this collection of information.

*Needs and Uses:* Section 87.147 is needed to require applicants for aviation equipment certification to submit a Federal Aviation Administration (FAA) determination of the equipment's compatibility with the National Airspace System (NAS). This will

ensure that radio equipment operating in certain frequencies is compatible with the NAS, which shares system components with the military. The notification must describe the equipment, along with a report of measurements, give the manufacturer's identification, antenna characteristics, rated output power, emission type and characteristics, the frequency or frequencies of operation, and essential receiver characteristics if protection is required.
