

the RC if the review and analysis results in a proposed change that could impact total initial margin requirements by more than 5%. In that case, ICC Risk could not implement the proposed change without first obtaining a no-objection from the RC. Finally, the Risk Parameter Policy would also require monthly summary reports of sensitivity analyses to the RC or the RWG, depending on the parameter analyzed.

The Commission believes that in assigning these responsibilities, the proposed rule change would establish governance arrangements relating to the Risk Parameter Policy that are clear and transparent to fulfill the public interest requirements in Section 17A of the Act by clearly assigning and documenting responsibilities for reporting and acting on the results of the reviews of the Model's parameters and assumptions. Moreover, the Commission believes that by ensuring the RWG and RC are informed of the results of reviews, the Risk Parameter Policy would help promote the effectiveness of ICC's risk management procedures in thereby providing the RC and RWG an opportunity to correct any issues with the Model's parameters and underlying assumptions.

Therefore, for this reason, the Commission finds that the proposed rule change is consistent with Rule 17Ad-22(d)(8).²⁸

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act, and in particular, with the requirements of Section 17A(b)(3)(F) of the Act²⁹ and Rules 17Ad-22(b)(2), 17Ad-22(b)(3), and 17Ad-22(d)(8) thereunder.³⁰

It is therefore ordered pursuant to Section 19(b)(2) of the Act³¹ that the proposed rule change (SR-ICC-2019-002) be, and hereby is, approved.³²

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³³
