

continues to monitor FENOC's decommissioning financial assurance for its reactors and ISFSIs to ensure adequate funding and compliance with requirements for decommissioning funding.

The Petition Review Board (PRB) determined that no further actions were needed, and the NRC made no changes to the final director's decision as a result of this comment.

Comment 2 (from the petitioner's letter dated January 22, 2019, page 2):

The Environmental Law and Policy Center (ELPC) requested that the NRC postpone acting upon the proposed director's decision and hold open ELPC's petition until the NRC can review the December 31, 2018, decommissioning funding status information.

Response 2:

In the proposed director's decision, the NRC described the existing requirements and processes in place to monitor the decommissioning funding status of the licensees. If the report demonstrates that FENOC has sufficient funding in its trust, then no further action is necessary. For licensees that are no longer rate-regulated or do not have access to a non-bypassable charge, as is the case for FENOC and NG, any shortfalls identified in the report must be corrected by the time the next decommissioning funding status reports are due (March 31, 2020).

The PRB determined that no further actions were needed, and the NRC made no changes to the final director's decision as a result of this comment.

Comment 3 (from the petitioner's letter dated January 22, 2019, pages 2 and 3):

If the NRC does not act now to ensure that FES, FENOC, and NG reserve adequate funds for decommissioning, parent company FE could seek to fully extricate itself from any decommissioning obligations before the NRC can identify the extent of the funding shortfalls.

Response 3:

As stated in the proposed director's decision, the U.S. Department of Justice, and the NRC's Office of the General Counsel, are working closely together to represent the NRC's interests in the bankruptcy proceeding, including protection and preservation of the decommissioning trust funds and continued compliance with decommissioning requirements. The proceeding in the U.S. Bankruptcy Court may result in changes to FENOC's debt structure, including reorganization

and the transfer of control of the reactor operating licenses. Any such license transfers would be subject to NRC review and approval. As such, NRC approval of a license transfer would be required before FE could be removed from the current corporate structure for purposes relating to NRC licensing. NRC license transfer reviews include, among other things, a review of the applicant's financial qualifications, technical qualifications, and decommissioning funding. To approve the license transfer, the NRC must find that the applicant has demonstrated that there is reasonable assurance that sufficient funds will be available for the decommissioning process. Ultimately, the licensee is responsible for compliance with NRC decommissioning financial assurance regulations, and the NRC will continue to monitor the remaining licensee's continued compliance. While the bankruptcy proceeding is in progress, and until license termination, licensees are required to continue to comply with NRC regulations.

The PRB determined that no further actions were needed, and the NRC made no changes to the final director's decision as a result of this comment.

Comment 4 (from the petitioner's letter dated January 22, 2019, page 3):

There is no suggestion in the proposed Director's Decision that the NRC has reviewed Chapter 11 monthly statements of financial affairs, nor that it has assessed the status of the Chapter 11 proceedings.

Response 4:

As stated in the proposed director's decision, the U.S. Department of Justice and the NRC's Office of the General Counsel are working closely together to represent the NRC's interests in the bankruptcy proceeding, including protection and preservation of the decommissioning trust funds and continued compliance with decommissioning requirements. The U.S. Department of Justice has reviewed Chapter 11 monthly statements of financial affairs, and is actively involved in the status of the Chapter 11 proceedings.

The PRB determined that no further actions were needed, and the NRC made no changes to the final director's decision as a result of this comment.

NUCLEAR REGULATORY COMMISSION

[NRC-2019-0087]

Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

AGENCY: Nuclear Regulatory Commission.

ACTION: Biweekly notice.

SUMMARY: Pursuant to the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued, from March 12, 2019 to March 25, 2019. The last

biweekly notice was published on March 26, 2019.

DATES: Comments must be filed by May 9, 2019. A request for a hearing must be filed by June 10, 2019.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2019-0087. Address questions about NRC dockets IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Program Management, Announcements and Editing Staff.

- For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Shirley Rohrer, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-5411, email: Shirley.Rohrer@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2019-0087, facility name, unit number(s), plant docket number, application date, and subject when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2019-0087.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC-2019-0087, facility name, unit number(s), plant docket number, application date, and subject in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Pursuant to Section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the NRC is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

III. Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Combined Licenses and Proposed No Significant Hazards Consideration Determination

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in § 50.92 of title 10 of the *Code of Federal Regulations* (10 CFR), this means that operation of the facility in accordance with the proposed amendment would
