DOE/FE Evaluation

The Application will be reviewed pursuant to section 3 of the NGA, 15 U.S.C. 717b. In reviewing this Application, DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this

proceeding until DOE has met its NEPA responsibilities.

Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. SUPPLEMENTARY INFORMATION:

Title: FERC–542, Gas Pipelines Rates: Rate Tracking.

OMB Control No.: 1902–0070.

Type of Request: Three-year extension of the FERC–542 information collection requirements with no changes to the current reporting requirements.

Abstract: The information collected by FERC–542 is used by the Commission to implement the statutory provisions of Title IV of the Natural Gas Policy Act (NGPA), 15 U.S.C. 3301–3432, and sections 4, 5 and 16 of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 U.S.C. 717–717w). These statutes allow the Commission to collect natural gas transmission cost information from interstate natural gas pipelines for the purpose of verifying that these costs, which are passed on to customers, are just and reasonable.

Natural gas pipelines are required by the Commission to track their transportation costs to allow for the Commission's review and, where appropriate, approve the pass-through of these costs to pipeline customers. FERC–542 accounts for costs involving: (1) Research, development, and deployment expenditures; (2) annual charge adjustments; and (3) periodic rate adjustments.

FERC–542 filings may be submitted at any time or on a regularly scheduled basis in accordance with the pipeline company's tariff. Filings may be either: (1) Accepted; (2) suspended and set for hearing; (3) minimal suspension; or (4) suspended for further review, such as technical conference or some other type of Commission action.

The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 154, 154.107, 154.4, 154.7, 154.201, and 154.401–154.403.
