The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. k. Erie filed the Granby Hydroelectric Project Offer of Settlement (Settlement) on behalf of itself, the United States Department of the Interior—Fish and Wildlife Service, and the New York State Department of Environmental Conservation (Settlement Parties). Erie states that the goal of the Settlement is to provide for the continued operation of the Granby Project with appropriate long-term environmental protection, enhancement, and mitigation measures that meet the diverse objectives for maintaining a balance of non-power and power values on the Oswego River. The Settlement provides for the resolution of operational, fisheries, wildlife, water quality, and recreational issues raised by the Settlement Parties. Erie requests that the Commission incorporate language included in the Settlement for a 34-year license term into any new license issued. This would allow for the alignment of future Granby Project relicensing proceedings with the Oswego River Project No. 2474; the Granby Project shares a dam with the Fulton Development of the Oswego Project. Lastly, the Settlement incorporates, by reference, an Invasive Species Management Plan (Appendix A), a Bat and Bald Eagle Protection Plan (Appendix B), and a Trashrack and Fishway Operations and Maintenance Plan (Appendix C).

l. A copy of the Settlement is available for review at the Commission in the Public Reference Room, or may be viewed on the Commission's website at <http://www.ferc.gov>, using the "eLibrary" link. DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

	Docket Nos.
Jordan Cove Energy Project LP ...	CP17-495-000
Pacific Connector Gas Pipeline L.P.	CP17-494-000

Notice of Availability of the Draft Environmental Impact Statement for the Proposed Jordan Cove Energy Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) with the participation of the cooperating agencies listed below, has prepared a draft environmental impact statement (EIS) for the Jordan Cove Liquefied Natural Gas Project proposed by Jordan Cove Energy Project LP (Jordan Cove) and the Pacific Connector Gas Pipeline Project proposed by Pacific Connector Gas Pipeline L.P. (Pacific Connector) (collectively referred to as the Jordan Cove Energy Project or Project). Under Section 3 of the Natural Gas Act (NGA), Jordan Cove requests authorization to liquefy at a terminal in Coos Bay, Oregon up to 1.04 billion cubic feet of natural gas per day for export for to overseas markets. Pacific Connector seeks a Certificate of Public Convenience and Necessity under Section 7 of the NGA to construct and operate an interstate natural gas transmission pipeline providing about 1.2 billion cubic feet per day of natural gas from the Malin hub to the Jordan Cove terminal, crossing portions of Klamath, Jackson, Douglas, and Coos Counties, Oregon.

The draft EIS assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). As described in the draft EIS, the FERC staff concludes that approval of the Project would result in a number of significant environmental impacts; however, the majority of impacts would be less than significant because of the impact avoidance, minimization, and mitigation measures proposed by Jordan Cove and Pacific Connector and those recommended by staff in the draft EIS.
