

Abstract: The New Source Performance Standards (NSPS) for Secondary Lead Smelters (40 CFR part 60, subpart L) apply to existing facilities and new secondary lead smelting facilities: Any pot furnace of more than 250 kg (550 lb) charging capacity, blast (cupola) furnaces, and reverberatory furnaces. The affected facilities include any facility producing lead from a lead bearing scrap material by smelting to the metallic form. Blast furnace means any furnace used to recover metal from slag. Reverberatory furnaces include furnaces of various types, e.g., stationary, rotating, rocking and tilting. New facilities include those that commenced construction, modification, or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart L.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities: Secondary lead smelting facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart L).

Estimated number of respondents: 12 (total).

Frequency of response: Initially.

Total estimated burden: 32 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,620 (per year), which includes \$0 annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The adjustment decrease in burden from the most recently-approved ICR is due to a decrease in the number of sources. There is a decrease in the number of estimated sources from 14 to 12 due to consolidation within the sector. The reduced number of estimated sources also led to a decrease in the number of responses.

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2012-0528; FRL-9991-66-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Synthetic Fiber Production Facilities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NSPS for Synthetic Fiber Production Facilities (EPA ICR Number 1156.14, OMB Control Number 2060-0059), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through April 30, 2019. Public comments were previously requested, via the **Federal Register**, on May 30, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before May 17, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2012-0528, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The New Source Performance Standards (NSPS) for Synthetic Fiber Production Facilities (40 CFR part 60, subpart HHH) were proposed on November 23, 1982, promulgated on April 5, 1984, and amended on October 17, 2000. These regulations apply to both existing and new synthetic fiber production plants with a solvent-spun, synthetic fiber process that produce more than 500 megagrams (Mgs) of fiber per year that commenced construction or reconstruction after the date of proposal. The provisions of this subpart do not apply to any facility that uses the reaction spinning process to produce spandex fiber, or the viscose process to produce rayon fiber, or to facilities that commence modification, but not reconstruction, after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart HHH.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities: Synthetic fiber production plants with a solvent-spun, synthetic fiber process that produce more than 500 megagrams (Mgs) of fiber per year.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart HHH).

Estimated number of respondents: 22 (total).

Frequency of response: Initially, semiannually, and quarterly.

Total estimated burden: 1,880 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$380,000 (per year), which includes \$165,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no change in burden for this ICR compared to the previous ICR. This situation is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.

SUPPLEMENTARY INFORMATION: On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board. In exercising this delegated authority, the Board is directed to take every reasonable step to solicit comment. In determining whether to approve a collection of information, the Board will consider all comments received from the public and other agencies.

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;

b. The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or startup costs and costs of operation, maintenance,
