

Kendall Carpenter, Arlington, VA 20528.

Instructions: All submissions received must include the words "Department of Homeland Security" and the docket number for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided.

Comments submitted in response to this notice may be made available to the public through relevant websites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an email comment, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. Please note that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Kendall Carpenter at 703.705.6376 or at Kendall.Carpenter@HQ.DHS.GOV.

SUPPLEMENTARY INFORMATION: The CISA ECD, formed under Title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 571 *et seq.*, as amended, is required to develop and maintain the Nationwide Emergency Communications Plan (NECP). The vision of the NECP is to ensure emergency response personnel can communicate as needed, on demand, and as authorized. To achieve this vision, ECD provides the Communications Assets and Survey Mapping (CASM) Tool. The CASM Tool is the primary resource nationwide for the emergency communications community to inventory and share asset and training information for the purpose of planning public safety communications operability and interoperability.

DHS provides the CASM Tool as a secure and free nationwide database to contain communications capabilities for use by Federal, State, Local, Territorial, and Tribal (SLTT) emergency personnel. CASM allows Federal employees and SLTT Statewide Interoperability Coordinators (SWIC) to inventory emergency communication equipment and resources. The information entered is voluntary and used by SWIC to support tactical planning and

coordination during emergencies. DHS does not utilize the information entered into CASM. DHS only provides, maintains, and stores the information entered in the CASM database and only has administrative access to the information entered. All information is collected via electronic means. The CASM registration and database tool is available online via <https://casm.dhs.gov/>. Users can also access and enter information via the CASM Resource Finder mobile app.

This is a new information collection.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

Title of Collection: Communications Assets Survey and Mapping Tool.

OMB Control Number: 1670-NEW.

Frequency: Annually.

Affected Public: State, Local, Tribal, and Territorial Governments.

Number of Annualized Respondents: 56.

Estimated Time per Respondent: 0.08 or 0.5 hours.

Total Annualized Burden Hours: 341 hours.

Total Annualized Respondent Opportunity Cost: \$14,161.

Total Annualized Respondent Out-of-Pocket Cost: \$0.

Total Annualized Government Cost: \$2,200,000.

Scott Libby,

Deputy Chief Information Officer.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R4-ES-2019-0027; FXES1113040000EA-123-FF04EF1000]

Endangered and Threatened Wildlife; Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink, Lake County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service, have received an application for an incidental take permit (ITP) under the Endangered Species Act. Sunterra Communities, LLC (applicant) is requesting a 5-year ITP for take of the federally listed sand skink incidental to construction. We request public comment on the application, which includes the proposed habitat conservation plan, as well as on our preliminary determination that the plan qualifies as "low-effect" under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, which are also available for review.

DATES: We must receive your written comments by May 20, 2019.

ADDRESSES: *Obtaining Documents:* You may obtain copies of the documents online in Docket No. FWS-R4-ES-2019-0027 at <http://www.regulations.gov>.

Submitting Comments: You may submit comments by one of the following methods:

- *Online:* <http://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2019-0027.

- *U.S. mail or hand-delivery:* Public Comments Processing; Attn: Docket No. FWS-R4-ES-2019-0027; U.S. Fish and Wildlife Service, MS: BPHC; 5275 Leesburg Pike; Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT: Erin M. Gawera, by telephone at 904-731-3121, via the Federal Relay Service at 800-877-8339, or via email at erin_gawera@fws.gov.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), have received an application for an incidental take permit (ITP) under the Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*). Sunterra Communities, LLC (applicant) is requesting a 5-year

ITP for take of the federally listed sand skink (*Neoseps reynoldsi*) incidental to construction. We request public comment on the application, which includes the proposed habitat conservation plan (HCP), as well as on our preliminary determination that the HCP qualifies as “low-effect” under the National Environmental Policy Act (NEPA; 43 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, which are also available for review.

The applicant requests a 5-year ITP to take sand skink incidental to the conversion of approximately 7.74 acres of occupied sand skink foraging and sheltering habitat for construction of a housing, commercial, and institutional development on a 1,680-acre project site. The site is located on parcels number 292126000100003000, 322126000100000101, 322126000100001800, 042226000200000300, 042226000300000600, 092226010502100000, 092226010501400001, 092226010503900000, and 092226010503900002 within Sections 28, 29, 32 & 33, Township 21 South, Range 26 East, and Sections 4, 5 & 9, Township 22 South, Range 26 East, Lake County, Florida. The project includes clearing, infrastructure building, and landscaping associated with construction. To mitigate for take under the ITP, the applicant proposes purchase 15.48 credits within the Lake Wales Ridge Conservation Bank or another Service-approved sand skink bank prior to the commencement of construction activities.

Public Availability of Comments

All comments, whether received electronically or via hard copy, will be posted on <http://regulations.gov> and become part of the decision record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you can request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

We have determined that the applicant’s proposal, including the proposed mitigation and minimization measures, would have minor or negligible effects on the sand skinks and the environment. Therefore, we have

preliminarily determined that the ITP for this project would be “low effect” and qualify for categorical exclusion under NEPA. A low-effect HCP is one involving (1) minor or negligible effects on federally listed or candidate species and their habitats, and (2) minor or negligible effects on other environmental values or resources.

Next Steps

The Service will evaluate the ITP application and comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA. After considering the above findings, we will determine whether the requirements of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP no. TE13200D–0 to the applicant for incidental take of the sand skink.

Authority

The Service provides this notice under section 10 of the ESA (16 U.S.C. 1539) and NEPA regulation 40 CFR 1506.6.

Richard Rauschenberger,

Acting Field Supervisor, Jacksonville Field Office, Southeast Region.

Habitat Conservation Plan for the California Tiger Salamander; Categorical Exclusion, Santa Barbara County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from Mr. Mario Martinez for an incidental take permit under the Endangered Species Act of 1973, as amended. The permit, if issued, would authorize take of the federally endangered California tiger salamander (Santa Barbara County distinct population segment) incidental to otherwise lawful activities associated with the applicant’s draft habitat conservation plan. We invite public comment.

DATES: Written comments should be received on or before May 20, 2019.

ADDRESSES:

Obtaining Documents: You may download a copy of the draft habitat conservation plan and draft low-effect screening form and environmental action statement at <http://www.fws.gov/ventura/>, or you may request copies of the documents by U.S. mail (below) or by phone (see **FOR FURTHER INFORMATION CONTACT**).

Submitting Written Comments: Please send us your written comments using one of the following methods:

- **U.S. Mail:** Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003.

- **Email:** rachel_henry@fws.gov.

FOR FURTHER INFORMATION CONTACT:

Rachel Henry, Fish and Wildlife Biologist, by phone at 805–677–3312, via the Federal Relay Service at 1–800–877–8339 for TTY assistance, or at the Ventura address (see **ADDRESSES**).

SUPPLEMENTARY INFORMATION: We have received an application for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant has developed a draft habitat conservation plan (HCP) for the project that includes measures to mitigate and minimize impacts to the federally endangered Santa Barbara County distinct population segment (DPS) of the California tiger salamander (*Ambystoma californiense*). The permit would authorize take of the Santa Barbara County DPS of the California tiger salamander incidental to otherwise lawful activities associated with the 2650 East Clark Avenue HCP. We invite public comment on draft HCP, draft low-effect screening form, and environmental action statement.

Background

The Service listed the Santa Barbara County DPS of the California tiger salamander as endangered on September 21, 2000 (65 FR 57242). Section 9 of the ESA and its implementing regulations prohibit the take of fish or wildlife species listed as endangered or threatened. “Take” is defined under the ESA to include the following activities: “[T]o harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532); however, under section 10(a)(1)(B) of the ESA, we may issue permits to authorize incidental take of listed species. “Incidental take” is defined by the ESA as take that is incidental to, and not the purpose of, carrying out of an otherwise lawful
