#### Amendment of Class D and Class E Airspace, and Revocation of Class E Airspace; Brooksville, FL

**AGENCY:** Federal Aviation Administration (FAA), DOT. **ACTION:** Final rule.

SUMMARY: This action amends Class D airspace and Class E airspace extending upward from 700 feet above the surface at Brooksville-Tampa Bay Regional Airport, (previously Hernando County Airport), Brooksville, FL, by recognizing the airport's name change and updating the airport's geographic coordinates. Also, Class E surface airspace is removed as it is no longer necessary. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at this airport. This action also replaces the outdated term Airport/Facility Directory with the term Chart Supplement in the legal descriptions of associated Class D airspace of this airport.

**DATES:** Effective 0901 UTC, June 20, 2019. The Director of the **Federal Register** approves this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

# SUPPLEMENTARY INFORMATION:

#### Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class D and Class E airspace extending upward from 700 feet above the surface, and removes Class E surface airspace at Brooksville-Tampa Bay Regional Airport, (previously Hernando County Airport), Brooksville, FL, to support standard instrument approach procedures for IFR operations at this airport.

## History

The FAA published a notice of proposed rulemaking in the Federal Register (84 FR 6987, March 1, 2019) for Docket No. FAA-2019-0086 to amend Class D and Class E airspace extending upward from 700 feet above the surface by recognizing the airport's name change to Brooksville-Tampa Bay Regional Airport, (formerly Hernando County Airport), and updating the geographic coordinates of the airport to be in concert with the FAA's aeronautical database. Also, Class E surface airspace would be removed, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for IFR operations at this airport.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class D and E airspace designations are published in Paragraphs 5000, 6002, and 6005 respectively, of FAA Order 7400.11C, dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR part 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

# Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11C, Airspace Designations and Reporting Points, dated August 13, 2018, and effective September 15, 2018. FAA Order 7400.11C is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11C lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

## The Rule

This amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 amends Class D and Class E airspace extending upward from 700 feet above the surface by recognizing the airport's name change to Brooksville-Tampa Bay Regional Airport, (formerly Hernando County Airport), and updating the geographic coordinates of the airport to be in concert with the FAA's aeronautical database. Also, Class E surface airspace is removed, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for IFR operations at this airport. Additionally, an editorial change is made replacing the outdated term Airport/Facility Directory with the term Chart Supplement in the associated Class D airspace legal description of this airport. These changes are necessary for continued safety and management of IFR operations at this airport.

# **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

# **Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
