

ambient air. This unventilated area borders the return air-courses of the active mine. Any gases that emit from the abandoned area will be carried to an exhaust vent shaft and removed from the mine—never reaching any active work areas or areas not already maintained to function in a gassy environment.

—Westvaco's active workings receive forced air from the surface. This mechanical ventilation creates a positive pressure environment that impedes the air in the impounded area from migrating through the barricades.

—The abandoned area is flooded, creating a liquid barrier between the submersible pump components and the ambient air.

(7) The physical design of the submersible pump system places the intake nozzle above the pump system's electrical components. The system's low water level shutoff sensor is a permissible component, and is positioned 15 feet above the pump's intake nozzle. The result of this design ensures that the electrical components will always be submerged, preventing their exposure to the ambient air. Because the non-permissible components will always be submerged, liquid barrier ensures that non-permissible equipment is not used in areas where methane may enter the air current.

(8) The pump system(s) will be in locations that are inaccessible by miners and the pumps operate autonomously, with remote control possible from the surface.

(9) Petitioner proposes to install autonomous equipment into a permanently abandoned area to support its milling activities on the surface. The petitioner states that if it is forced to undertake an alternative extraction method for the trona solution, the non-autonomous solution will likely require miners to be involved in the extraction which is less safe than an autonomous operation that only requires miners on the surface. The use of automated, submersible pump systems allows petitioner to avoid exposing miners to hazards associated with underground mining.

(10) The submersible pumps and technological upgrades that petitioner intends to install to perform liquid mining in underground impounded areas where no miners are present will provide a greater measure of safety than would be provided by having miners working in these areas who would then be exposed to the potential hazards of underground mining. Moreover, the use

of automated, submersible pumps to transport a liquid trona solution to the surface for refining will not result in a diminution of safety compared to traditional underground mining activities.

The modification requested in this petition provides the same or greater degree of protection to persons underground as would be afforded by other methods of compliance and avoids reducing safety by the use of other methods.

Director, Office of Standards, Regulations, and Variances.

NATIONAL SCIENCE FOUNDATION

Notice of Availability of Draft Comprehensive Environmental Evaluation (CEE) for Continuation and Modernization of McMurdo Station Area Activities in Antarctica

AGENCY: National Science Foundation.

ACTION: Notice of Availability.

SUMMARY: The National Science Foundation (NSF) has made available for public review and comment the Draft Comprehensive Environmental Evaluation (CEE) for Continuation and Modernization of McMurdo Station Area Activities, pursuant to the Antarctic Conservation Act, as amended, its implementing regulations, and in accordance with the Protocol on Environmental Protection to the Antarctic Treaty. The proposed activity would implement modernization projects at McMurdo Station while continuing United States Antarctic Program (USAP) science and operations at McMurdo Station and locations supported by the Station. NSF invites interested members of the public to provide written comments on this Draft CEE. Substantive comments will be addressed in a Final CEE.

DATES: NSF will accept comment on this permit application until July 11, 2019. The draft CEE may be viewed by interested parties at https://www.nsf.gov/geo/opp/antarct/treaty/modernization_cee.jsp.

ADDRESSES: Written comments should be addressed to Dr. Polly A. Penhale, Senior Advisor, Environment, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314 or CEE.comments@nsf.gov.

FOR FURTHER INFORMATION CONTACT: For further information regarding the CEE

process, please contact Dr. Polly A. Penhale, at the above address, 703-292-8030, or CEE.comments@nsf.gov.

SUPPLEMENTARY INFORMATION: A Notice of Availability of the CEE to modernize McMurdo Station and continue McMurdo area science and operational activities was also published in the **Federal Register** (Vol. 84, No. 71/Friday, April 12, 2019, Page 14936) and is available through the Environmental Protection Agency's Environmental Impact Statement Database at <https://cdxnodengn.epa.gov/cdx-enepa-II/public/action/eis/details?eisId=269627>.

Additional information on the proposed actions and purpose and need are provided in the Notice of Intent to prepare a CEE published in the **Federal Register** (Vol. 81, No. 164/Wednesday, August 24, 2016, Pages 57940-57941).

NUCLEAR REGULATORY COMMISSION

[NRC-2019-0097]

Information Collection: Nuclear Energy Innovation and Modernization Act Local Community Advisory Board Questionnaire

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed information collection; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment on this proposed collection of information. The information collection is entitled, "Nuclear Energy Innovation and Modernization Act Local Community Advisory Board Questionnaire."

DATES: Submit comments by June 18, 2019. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods:

- **Federal Rulemaking Website:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2019-0097. Address questions about docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-917; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• *Mail comments to:* David Cullison, Office of the Chief Information Officer, Mail Stop: O-1 F21, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2019-0097 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

• *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2019-0097. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC-2019-0097 on this website.

• *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML19099A485. The supporting statement is available in ADAMS under Accession No. ML19095B595.

• *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

• *NRC’s Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting NRC’s Clearance

Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

Please include Docket ID NRC-2019-0097 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized below.

1. *The title of the information collection:* Nuclear Energy Innovation and Modernization Act Local Community Advisory Board Questionnaire.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Once.

6. *Who will be required or asked to respond:* Respondents will be the existing local community advisory boards in the vicinity of power reactors undergoing decommissioning, similar established stakeholder groups, or local government organizations.

7. *The estimated number of annual responses:* 14 (6 responses from sites with established local community advisory boards + 8 responses from sites where local community advisory boards have not been established).

8. *The estimated number of annual respondents:* 14 (6 sites with established local community advisory boards + 8 sites where local community advisory boards have not been established).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 50 hours.

10. *Abstract:* The NRC is planning to coordinate activities in accordance with Section 108 of the Nuclear Energy Innovation and Modernization Act to collect information on the use of local community advisory boards during decommissioning activities and issue a best practices report. In order to ensure appropriate best practices are identified, the NRC has developed a questionnaire that will seek feedback in a number of areas related to the formation and operation of local community advisory boards. The questionnaire will address the following areas: The type of topics that might be brought before a community advisory board; how the board’s input could inform the decision-making process for various decommissioning stakeholders; how the board might interact with other State and Federal agencies to promote dialogue between the licensee and impacted stakeholders; and how the board could offer opportunities for public engagement throughout the decommissioning process. The NRC will issue a report to Congress in June 2020 identifying best practices for establishment and operation of local community advisory boards.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, on April 15, 2019.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also

establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3010, and 39 CFR part 3020, subpart B. For request(s) that the Postal Service states concern competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comment deadline(s) for each request appear in section II.

II. Docketed Proceeding(s)

1. *Docket No(s):* MC2019-124 and CP2019-133; *Filing Title:* USPS Request to Add Priority Mail Express, Priority Mail & First-Class Package Service Contract 59 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* April 15, 2019; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3020.30 *et seq.*, and 39 CFR 3015.5; *Public Representative:* Kenneth R. Moeller; *Comments Due:* April 23, 2019.

This Notice will be published in the **Federal Register**.
