The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, and 44 U.S.C. 3507.

Needs and Uses: The Commission received OMB approval for a revision to an existing information collection. OMB Collection No. 3060-1151, among other things, tracks the burdens associated with cable and telecommunications attachers gaining access to utility poles for pole attachments. In *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, Third Report and Order and Declaratory Ruling*, FCC 18-111, adopted a new framework for the vast majority of pole attachments governed by federal law by instituting a "one-touch make-ready" (OTMR) regime, in which a new attacher may elect to perform all simple work to prepare a pole for new wireline attachments in the communications space. This new framework includes safeguards to promote coordination among parties and ensures that new attachers perform the work safely and reliably. The Commission retained the existing multi-party pole attachment process for other new attachments that are complex or above the communications space of a pole, but made significant modifications to speed deployment, promote accurate billing, expand the use of self-help for new attachers when attachment deadlines are missed, and reduce the

likelihood of coordination failures that lead to unwarranted delays. The Commission further revised the pole attachment rules by codifying and redefining Commission precedent that requires utilities to allow attachers to "overlash" existing wires, thus maximizing the usable space on the pole. Utilities and pole attachers will use the information collected under this revision to 47 CFR 1.1411 to implement and coordinate both OTMR and non-OTMR pole attachments. Pole attachers will use the information collected under this revision to 47 CFR 1.1412 to select utility-approved contractors to perform pole attachment-related work, when required. Pole attachers and utilities will use the information collected under this revision to 47 CFR 1.1415 to inform utilities, when required, of an impending overlash of an attachment on a utility's pole and to coordinate inspection of a performed overlash.

[MB Docket No. 18-1268; RM-11800; DA 19-264]

Television Broadcasting Services Bridgeport and Stamford, Connecticut

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: At the request of Connecticut Public Broadcasting, Inc. (CPBI), licensee of television station WEDW channel *49, Bridgeport, Connecticut (WEDW), the Commission has before it a contested *Notice of Proposed Rulemaking* to change WEDW's community of license from Bridgeport to Stamford, Connecticut. The Commission believes that the proposal is a preferential arrangement of allotments because it will provide Stamford, the third largest city in Connecticut, with its first broadcast television service. The Commission also reiterates that the grant of the proposal will not deprive Bridgeport of its sole broadcast television service because it will continue to be served by full power television station WZME, Bridgeport, Connecticut, licensed to NRJ TV NY License Co., LLC (NRJ).

DATES: Effective April 19, 2019.

[Docket No. FRA-2013-0060, Notice No. 4]

RIN 2130-AC46

Passenger Equipment Safety Standards; Correction

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Correcting amendment.

SUMMARY: On November 21, 2018, FRA published a final rule amending FRA's passenger equipment safety standards. In preparing the final rule for publication, an error was made that led to the inadvertent removal of rule text. FRA is correcting that minor error to restore the rule text so that the final rule clearly conforms to FRA's intent.

DATES: Effective on April 19, 2019.

FOR FURTHER INFORMATION CONTACT:

Michael Hunter, Attorney Adviser, U.S. Department of Transportation, Federal Railroad Administration, Office of Chief Counsel, 1200 New Jersey Avenue SE, Washington, DC 20590 (telephone: 202-493-0368).

SUPPLEMENTARY INFORMATION: In the November 21, 2018, final rule amending FRA's passenger equipment safety standards, FRA incorrectly worded an

instruction amending paragraph (a) of 49 CFR 238.213. The error led to the inadvertent removal of paragraphs (a)(1)(i) through (iii) of § 238.213. *See* 83 FR 59182, 59219 (Nov. 21, 2018). As this was not FRA's intent, FRA is issuing this correction amending § 238.213 to restore those paragraphs, and is proceeding directly to a final rule as it finds public notice and comment to be unnecessary per the "good cause" exemption in 5 U.S.C. 553(b)(3)(B).

49 CFR Part 238

Passenger equipment, Railroad safety, Reporting and recordkeeping requirements.

The Rule

For the reasons discussed in the preamble, FRA amends part 238 of chapter II, subtitle B of title 49, Code of Federal Regulations as follows:

PART 238—[AMENDED]

- 1. The authority citation for part 238 continues to read as follows:

Authority: 49 U.S.C. 20103, 20107, 20133, 20141, 20302-20303, 20306, 20701-20702, 21301-21302, 21304; 28 U.S.C. 2461, note; and 49 CFR 1.89.

- 2. In § 238.213, add paragraphs (a)(1)(i) through (iii) to read as follows:

§ 238.213 Corner posts.

- (a)(1) * * *
- (i) A 150,000-pound horizontal force applied at a point even with the top of the underframe, without exceeding the ultimate strength of either the post or its supporting car body structure;
 - (ii) A 20,000-pound horizontal force applied at the point of attachment to the roof structure, without exceeding the ultimate strength of either the post or its supporting car body structure; and
 - (iii) A 30,000-pound horizontal force applied at a point 18 inches above the top of the underframe, without permanent deformation of either the post or its supporting car body structure.
