Letters of Intent

A Letter of Intent (LOI) to submit a nomination is required (nominees may self-nominate and submit their own LOIs). The LOI should be a 1-page, single-spaced Word or PDF document and include:

1. Nominee's name, title, affiliation, and date of terminal degree.
2. eRA Commons ID.
 - a. Before submitting the LOI, researchers should confirm ESI status is correctly marked in their eRA Commons (<https://era.nih.gov/>) profile. Nominations

Nomination packages may be submitted by the nominee or a nominee's mentor or colleague. Nomination packages must be a single PDF file that includes:

1. CV and NIH Biosketch including a link (URL) to the nominee's *My Bibliography* in PubMed.
 - a. If you do not have a *My Bibliography* in PubMed, refer to these simple step-by-step instructions to save your citations in PubMed to a "My Bibliography."
 - b. Use the URL that PubMed automatically generates when you change your "My Bibliography" sharing setting to public.
2. Letter of nomination (1,000 words or less) from a mentor or colleague familiar with the nominee's work, addressing the nominee's innovative contribution to the field of SGM health research, crosscutting and collaborative nature of that research, trajectory of career development, and leadership strengths. The strongest letters will demonstrate the lasting significance and impact of the nominee's work to date.
3. Two letters of endorsement from other mentors or colleagues. Letters of endorsement may be less encompassing than the letter of nomination, but should address similar themes.
4. A PDF of a key, peer-reviewed article published in the past 24-month period, which is first-authored by the nominee. If in press, please provide the

accepted paper and the letter of acceptance from the journal.

After compiling all the above elements into a single PDF file, attach the PDF to an email, and send it to sgmhealthresearch@od.nih.gov with the subject line header "2019 NIH SGM Investigator Award Nomination" no later than 11:59 p.m. local time on June 10, 2019.
