SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for a reinstatement with change to the Quick Survey Business Questions Test. The Bureau of Labor Statistics (BLS) will conduct a second Operations Test of a Quick Business Survey (QBS). The BLS will conduct this test to build on the results of the prior test to further evaluate QBS survey processes and operations in a possible production environment. If successful, a QBS would allow the BLS to collect information about the U.S. Economy in a more efficient manner than is currently possible and would allow data users to understand the impact of specific events on the economy in a timely manner. This information collection request allows the agency to use a revised version of the same information collection under the OMB Control Number provided with the original approval and has been classified as a reinstatement with change, because:

- A previously approved collection has expired or, the agency subsequently decided to discontinue. This request allows the agency to use a revised

version of the same information collection under the OMB Control Number provided with the original approval.

- The agency made a change to the ICR by increasing the sample size in order to test refined sampling methodologies.
- The agency updated the employer costs for wages, salaries, and benefits using more current (September 2018) data.

The BLS Authorizing Statute authorizes this information collection. See 29 U.S.C 1, 2.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 28, 2018 (83 FR 67360).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0192. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2006-0028]

CSA Group Testing & Certification, Inc.: Grant of Expansion of Recognition and Modification to the NRTL Program's List of Appropriate Test Standards

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for CSA Group Testing & Certification, Inc. (CSA), as a Nationally Recognized Testing Laboratory (NRTL). Additionally, OSHA announces the addition of one test standard to the NRTL Program's List of Appropriate Test Standards.

DATES: The expansion of the scope of recognition becomes effective on April 22, 2019.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone: (202) 693-1999; email: meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor; telephone: (202) 693-2110; email: robinson.kevin@dol.gov. OSHA's web page includes information about the NRTL Program (see <http://>

www.osha.gov/dts/otpc/nrtl/index.html).

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of CSA Group Testing & Certification, Inc. (CSA), as a NRTL. CSA's expansion covers the addition of one test standard to its scope of recognition. Additionally, OSHA announces the addition of one test standard to the NRTL Program's List of Appropriate Test Standards.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified by 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The agency processes applications by a NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding and, in the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL that details its scope of recognition. These pages are available from the agency's website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

CSA submitted an application, dated May 23, 2017 (OSHA-2006-0042-0012), to expand recognition to include seven additional test standards. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application. OSHA published a **Federal Register** notice (82 FR 60051 December 18, 2017) announcing this application, but referenced one incorrect standard in the listing of appropriate test standards (UL 498A). OSHA further published a **Federal Register** notice (83 FR 22289 May 14, 2018) granting recognition for the six additional standards requested in the

application. UL 498A is already included in the list of appropriate test standards and in CSA's scope of recognition. This notice revises the previous **Federal Register** notice for the one remaining standard (UL 489A).

OSHA published the preliminary notice announcing CSA's expansion application and proposed addition to the NRTL List of Appropriate Test Standards in the **Federal Register** on February 12, 2019 (84 FR 3499). The agency requested comments by February 28, 2019, but received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of CSA's scope of recognition.

To obtain or review copies of all public documents pertaining to CSA's application, go to <http://www.regulations.gov> or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N-3653, Washington, DC 20210. Docket No. OSHA-2006-0042 contains all materials in the record concerning CSA's recognition.

II. Final Decision and Order

OSHA staff examined CSA's expansion application, the capability to meet the requirements of the test standards, and other pertinent information. Based on a review of this evidence, OSHA finds that CSA meets the requirements of 29 CFR 1910.7 for expansion of the recognition, subject to the specified limitation, and conditions listed. OSHA, therefore, is proceeding with this final notice to grant CSA's scope of recognition. OSHA limits the expansion of CSA's recognition to testing and certification of products for demonstration of conformance to the test standard listed in Table 1.

TABLE 1—LIST OF APPROPRIATE TEST STANDARD FOR INCLUSION IN CSA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 489A*	Standard for Circuit Breakers for Use in Communications Equipment

* Represents the standard that OSHA will add to the NRTL Program's List of Appropriate Test Standards

In this notice, OSHA also announces the addition of a new test standard to the NRTL Program's List of Appropriate Test Standards. Table 2, lists the test standard that is new to the NRTL Program. OSHA has determined that this test standard is an appropriate test standard and will include it in the

NRTL Program's List of Appropriate Test Standards.

TABLE 2—TEST STANDARD OSHA IS ADDING TO THE NRTL PROGRAM'S LIST OF APPROPRIATE TEST STANDARDS

Test standard	Test standard title
UL 489A	Standard for Circuit Breakers for Use in Communications Equipment

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, the use of the designation of the standards-developing organization for the standard as opposed to the ANSI designation may occur. Under the NRTL Program's policy (see OSHA Instruction CPL 1-0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, CSA must abide by the following conditions of the recognition:

1. CSA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. CSA must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. CSA must continue to meet the requirements for recognition, including all previously published conditions on CSA's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of CSA, subject to the limitation and conditions specified above.

III. Authority and Signature

Loren Sweatt, Acting Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on April 16, 2019.

Loren Sweatt,

Acting Assistant Secretary of Labor for Occupational Safety and Health.
