SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on February 13, 2019 (Vol. 84, No. 30) and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The Federal Mediation and Conciliation Service may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised or implemented on or after October 1, 1995, unless it displays a current valid OMB control number.

In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the FMCS has submitted to OMB a request for review and approval of the information collection below.

Proposed Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Need and Use of Information Collection: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 1,167.

Current Action: New collection of information.

Type of Review: New collection.

Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

Below we provide projected average annual estimates:

Estimated Number of Annual Respondents: 7,000.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of

information, including each proposed extension or reinstatement of an existing collection of information, and to allow a second opportunity for public comment on the notice. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency's functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments on the collection(s) of information must be received by the OMB desk officer by May 24, 2019.

ADDRESSES: When commenting on the proposed information collections, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be received by the OMB desk officer via one of the following transmissions: OMB, Office of Information and Regulatory Affairs, Attention: CMS Desk Officer, Fax Number: (202) 395-5806, OR Email: OIRA_submission@omb.eop.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the

Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. Type of Information Collection

Request: Revision of a currently approved collection; **Title of Information Collection:** Medicare Advantage Qualifying Payment Arrangement Incentive (MAQI) Demonstration; **Use:** CMS plans to use this data to implement and test the MAQI Demonstration, with its associated research questions. More specifically, CMS would review the information collected in both forms to determine whether clinicians meet the conditions for waivers of MIPS reporting requirements and payment adjustments set forth in the Demonstration and therefore may receive the waiver afforded under the demonstration. Information collected as part of the Qualifying Payment Arrangement Submission Form would provide a basis for CMS to determine whether a clinician's contractual/ payment arrangement is a Qualifying Payment Arrangement under the MAQI Demonstration. For example, the information collected could be reviewed against the Demonstration's standards for minimum financial risk. Information collected as part of the Threshold Data Submission Form would allow CMS to make the calculations necessary to determine whether the MAQI participant meets the threshold(s) required to receive waivers from MIPS reporting requirements and payment adjustments under the Demonstration.

While selection of qualifying clinicians would be the main use of these data, CMS might also use this information to inform monitoring and the evaluation of the MAQI Demonstration as needed and in conjunction with the MAQI Demonstration's research questions.

Finally, this data may be used by the Department of Justice, a court, or adjudicatory body, another federal agency investigating fraud, waste, and abuse, appropriate agencies in the case of a system breach, or the U.S. Department of Homeland Security in the event of a cybersecurity incident. **Form Number:** CMS-10673 (OMB control number: 0938-1354; **Frequency:** Annually; **Affected Public:** Business or other for-profit and Not-for-profit institutions; **Number of Respondents:** 100,000; **Total Annual Responses:**
