Abstract: The Organic Act of 1916 (NPS Organic Act) (54 U.S.C. 100101) authorizes the Secretary of the Interior to develop regulations for units of the national park system (System units) under the Department's jurisdiction. The Mining in the Parks Act (54 U.S.C. 100731 *et seq.*) directs the Secretary of the Interior to regulate all operations in System units in connection with the exercise of mineral rights on patented and unpatented mining claims.

The regulations at 36 CFR part 9, subparts A and B, ensure that mining and non-Federal oil and gas activities in System units are conducted in a manner consistent with conserving each System unit for the benefit of present and future generations. The information required by Subpart A identifies the claim, claimant, and operator (the claimant and operator are often the same) and details how the operator intends to access and develop the minerals associated with the claim. It also identifies the steps the operator intends to take to minimize any adverse impacts of the mining operations on park resource and values. No information, except claim ownership information, is submitted unless the claimant wishes to conduct mining operations. The information required by subpart B identifies the owner and operator (the owner and operator are often the same) and details how the operator intends to access and develop the oil and gas rights. It also identifies the steps the operator intends to take to minimize any adverse impacts on park resources and values. No information is submitted unless the owner wishes to conduct oil and gas operations.

With this submission, we plan to request OMB approval to consolidate the information collection requirements currently approved under OMB Control No. 1024–0274, "Non-Federal Oil and Gas Rights, 36 CFR part 9, subpart B" into this collection. We identified the information collection requirements associated with 1024–0274 in the burden table below. If OMB approves this revision, we will discontinue OMB Control Number 1024–0274.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under The Clean Air Act

On April 18, 2019, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Minnesota in the lawsuit entitled *United States* v. *United Taconite LLC*, Civil Action No. 19–1043.

The United States filed a Complaint in this lawsuit under the Clean Air Act (CAA), naming United Taconite LLC as the defendant. The Complaint seeks injunctive relief and civil penalties for

violations of the environmental regulations that govern taconite mines and processing plants and the emission of particulate matter from certain sources at defendant's taconite processing plant in Forbes, St. Louis County, Minnesota. Under the proposed Consent Decree, United Taconite agrees to implement procedures to improve future compliance with the CAA and State regulations, and pay \$50,000 in civil penalties. Under the proposed Consent Decree, United Taconite also agrees to replace an existing wet scrubber at its processing plant with a more efficient dry fabric filter particulate matter control system at an estimated cost of over \$480,000. In
