SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection:

Multifamily Default Status Report.

OMB Approval Number: 2502-0041.

OMB Expiration Date: 10/31/19.

Type of Request: Revision of currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: The regulations at 24 CFR 207.256, 24 CFR 207.256a, and 24 CFR 207.258 require a mortgagee to notify HUD when a mortgage payment is in default (more than 30 days past due), when a mortgage has been reinstated, and to submit an election to assign a defaulted loan to HUD within a specified timeframe from the date of default. The regulation at 24 CFR 200, Subpart B, requires lenders to submit delinquency, default, election to assign, and other related loan information statuses electronically to HUD. Lenders previously used HUD Form 92426 for these submissions, however, with the implementation of the regulation requiring electronic notification, the Multifamily Delinquency and Default Reporting System (MDDR) was established to replace the paper form HUD-92426. HUD uses the information as an early warning mechanism to work with project owners and lenders to develop a plan that will reinstate a loan and avoid an insurance claim. It also provides

HUD staff a mechanism for mortgagee compliance with HUD's loan servicing procedures and assignments.

Respondents (i.e., affected public): respondents are FHA-approved multifamily lenders (business or other for-profit).

Estimated Number of Respondents: 114.

Estimated Number of Responses: 1368.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Draft Programmatic Environmental Impact Statement and Draft Habitat Conservation Plan and Amendments; Receipt of Applications for Incidental Take Permits for Four Wind Energy Projects in Hawai'i

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a habitat conservation plan (HCP) and three amendments to existing HCPs in support of requests for new or amended incidental take permits (ITPs) under the Endangered Species Act authorizing the take of endangered species from four similar wind energy projects. The proposed permit actions involve a new HCP for the Pakini Nui Wind Farm on the Island of Hawai'i and major amendments to three existing HCPs—for the Auwahi Wind and Kaheawa Wind Power II projects, both located on Maui, and the Kawaiiloa Wind project on O'ahu. All four wind energy facilities are already constructed and in operation. The proposed new ITP and ITP amendments would address take of one or more of the following three endangered species: The Hawaiian hoary bat, Hawaiian goose, and the Hawaiian petrel. Also available for review is the Service's draft programmatic environmental impact statement (PEIS), which was prepared in response to these four applications. We are seeking public comments on the draft HCP and draft HCP amendments, and the draft PEIS.

DATES: To ensure consideration, please send your written comments by June 10, 2019. The Service will consider all written or verbal comments on the scope of the analysis that are received or postmarked by this date.

Public Meetings: The Service will host the following public meetings during the public comment and review period:

SUPPLEMENTARY INFORMATION: The Service received incidental take permit (ITP) applications from four wind energy companies (applicants) in accordance with the requirements of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The proposed ITP and ITP amendments would authorize take of one or more of the following species: The endangered Hawaiian hoary bat (*‘ōpe‘ape‘a* in Hawaiian; *Lasiurus cinereus semotus*), the endangered Hawaiian goose (nēnē; *Branta sandvicensis*), and the endangered Hawaiian petrel (*‘ua‘u*; *Pterodroma sandwichensis*), hereafter collectively referred to as the “covered species.”

The ITPs, if issued, would authorize the incidental take of covered species caused by the operation of existing land-based wind energy facilities. The applicants are not seeking ITP coverage
