#### **SUPPLEMENTARY INFORMATION:**

*Title:* National Census of Ferry Operators (NCFO).

*Type of Request:* Approval modifications to an existing information collection.

*Affected Public:* There are approximately 250 ferry operators nationwide.

*Abstract:* In 1998, the Transportation Equity Act for the 21st Century (TEA-21) (Pub. L. 105-178), section 1207(c), directed the Secretary of Transportation to conduct a study of ferry transportation in the United States and its possessions. In 2000, the Federal Highway Administration (FHWA) Office of Intermodal and Statewide Planning conducted a survey of approximately 250 ferry operators to identify: (1) Existing ferry operations including the location and routes served; (2) source and amount, if any, of funds derived from Federal, State, or local governments supporting ferry construction or operations; (3) potential domestic ferry routes in the United States and its possessions; and (4) potential for use of high speed ferry services and alternative-fueled ferry services. In 2005, the Safe, Accountable, Flexible Efficient Transportation Equity Act—A Legacy for Users (SAFETEA-LU) Public Law 109-59, Section 1801(e) required that the Secretary, acting through the BTS, shall establish and maintain a national ferry database containing current information regarding routes, vessels, passengers and vehicles carried, funding sources and such other information as the Secretary considers useful. In 2012, MAP-21 legislation [Moving Ahead for Progress in the 21st Century Act (Pub. L. 112-141),] continued the BTS mandate to conduct the NCFO and also required that the Federal Highway Administration (FHWA) use the NCFO data to set the specific formula for allocating federal ferry funds. The funding allocations were based on a percentage of the number of passenger boardings, vehicle boardings, and route miles served. In 2015, the FAST Act legislation [Fixing America's Surface Transportation Act (Pub. L. 114-94, sec. 1112)] continues the BTS mandate to conduct the NCFO on a biennial basis, and extended the requirement that the Federal Highway Administration (FHWA) use the NCFO data to set the specific formula for allocating federal ferry funds as required in MAP-21.

BTS conducted the first National Census of Ferry Operators in 2006. The Census was conducted again in 2008,
