

records for applicants who are hired may be maintained in accordance with the System of Records entitled BGFRS-41 "FRB—Ethics Program Records." Onboarding records for hires who become employees of the Board are maintained in accordance with the respective Board system of records for the records including BGFRS-4 "FRB—General Personnel Records," BGFRS-7 "FRB—Payroll and Leave Records," BGFRS-24 "FRB—EEO General Files," and BGFRS-34 "FRB—ESS Staff Identification Card File."

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Paper records are secured by lock and key and electronic files are stored on secure servers. The system has the ability to track individual user actions within the system. The audit and accountability controls are based on NIST and Board standards which, in turn, are based on applicable laws and regulations. The controls assist in detecting security violations and performance or other issues in the system. Access to the system is restricted to authorized users within the Board who require access for official business purposes. Users are classified into different roles and common access and usage rights are established for each role. User roles are used to delineate between the different types of access requirements such that users are restricted to data that is required in the performance of their duties. Periodic assessments and reviews are conducted to determine whether users still require access, have the appropriate role, and whether there have been any unauthorized changes.

RECORD ACCESS PROCEDURES:

The Privacy Act allows individuals the right to access records maintained about them in a Board system of records. Your request for access must: (1) Contain a statement that the request is made pursuant to the Privacy Act of 1974; (2) provide either the name of the Board system of records expected to contain the record requested or a concise description of the system of records; (3) provide the information necessary to verify your identity; and (4) provide any other information that may assist in the rapid identification of the record you seek.

seeking to access or amend his/her Privacy Act records.

You may submit your Privacy Act request to the—Secretary of the Board, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551.

You may also submit your Privacy Act request electronically through the Board's FOIA "Electronic Request Form" located here: <https://www.federalreserve.gov/secure/forms/foiaform.aspx>.

CONTESTING RECORD PROCEDURES:

The Privacy Act allows individuals to seek amendment of information that is erroneous, irrelevant, untimely, or incomplete and is maintained in a system of records that pertains to them. To request an amendment to your record, you should clearly mark the request as a "Privacy Act Amendment Request." You have the burden of proof for demonstrating the appropriateness of the requested amendment and you must provide relevant and convincing evidence in support of your request.

Your request for amendment must: (1) Provide the name of the specific Board system of records containing the record you seek to amend; (2) identify the specific portion of the record you seek to amend; (3) describe the nature of and reasons for each requested amendment; (4) explain why you believe the record is not accurate, relevant, timely, or complete; and (5) unless you have already done so in a related Privacy Act request for access or amendment, provide the necessary information to verify your identity.

NOTIFICATION PROCEDURES:

Same as "Access procedures" above. You may also follow this procedure in order to request an accounting of previous disclosures of records pertaining to you as provided for by 5 U.S.C. 552a(c).

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

Certain portions of this system of records may be exempt from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f) of the Privacy Act pursuant to subsections 5 U.S.C. 552a(k)(2) and (k)(5).

SUPPLEMENTARY INFORMATION:

Title: Health Breach Notification Rule.

OMB Control Number: 3084-0150.

Type of Review: Extension of a currently approved collection.

Abstract: The Health Breach Notification Rule (Rule), 16 CFR part 318, requires vendors of personal health records and PHR related entities to

provide: (1) Notice to consumers whose unsecured personally identifiable health information has been breached; and (2) notice to the Commission. The Rule only applies to electronic health records and does not include recordkeeping requirements. The Rule requires third party service providers (*i.e.*, those companies that provide services such as billing or data storage) to vendors of personal health records and PHR related entities to provide notification to such vendors and PHR related entities following the discovery of a breach. To notify the FTC of a breach, the Commission developed a simple, two-page form requesting minimal information and consisting mainly of check boxes, which is posted at www.ftc.gov/healthbreach.

On February 8, 2019, the FTC sought comment on the information collection requirements associated with the Rule. 84 FR 2868. The FTC received seven non-germane comments that did not address either the burden associated with the Rule or any of the other issues raised by the public comment request. Pursuant to OMB regulations, 5 CFR part 1320, that implement the PRA, 44 U.S.C. 3501 *et seq.*, the FTC is providing this second opportunity for public comment while seeking OMB approval to renew the pre-existing clearance for the Rule. For more details about the Rule requirements and the basis for the calculations summarized below, see 84 FR 2868.

Likely Respondents: Vendors of personal health records, PHR related entities and third party service providers.

Estimated Annual Hours Burden: 4,779.

Estimated Frequency: 25,000 single-person breaches per year and 0.33 major breaches per year.

Total Annual Labor Cost: \$96,656.¹

Total Annual Capital or Other Non-Labor Cost: \$29,952.²

¹ Hourly wages throughout this document are updated from the 60-Day **Federal Register** notice and are based on mean hourly wages found at <http://www.bls.gov/news.release/ocwage.htm> ("Occupational Employment and Wages—May 2018," U.S. Department of Labor, released March 2019, Table 1 ("National employment and wage data from the Occupational Employment Statistics survey by occupation, May 2018").

The breakdown of labor hours and costs is as follows: 50 hours of computer and information systems managerial time at approximately \$73 per hour; 12 hours of marketing manager time at \$71 per hour; 33 hours of computer programmer time at \$43 per hour; and 5 hours of legal staff time at \$69 per hour. The cost of telephone operators is estimated at \$19/hour.

² Average wages for information security analysts are estimated at \$49/hour.
