Needs and Uses: The Commission adopted the Use of Spectrum Bands Above 24 GHz for Mobile Radio services in a Fifth Report and Order (“Fifth R&O”), GN Docket No. 14–177, FCC 19–30, on April 15, 2019. In the Fifth R&O, the Commission amended Section 25.136 by revising the section heading and revising paragraphs (e), (f), and (g) and adding paragraphs (e)(1), (2), (3), and (4)(i), (ii), (iii), and (iv). The Commission added the 50 GHz band (50.4–51.4 GHz) to the bands that are subject to the framework for sharing between the Upper Microwave Flexible Use Service (UMFUS) and the Fixed-Satellite Service (FSS) established in that rule. In turn, since the rules now apply in additional bands, the number of respondents, the annual number of responses, annual burden hours and annual costs will increase for this collection. In addition, the Commission re-orders the paragraphs in § 25.136.

Background on the CPSTF: The CPSTF is an independent, nonfederal panel whose members are appointed by the CDC Director. CPSTF members represent a broad range of research, practice, and policy expertise in prevention, wellness, health promotion, and public health. The CPSTF was convened in 1996 by the Department of Health and Human Services (HHS) to identify community preventive programs, services, and policies that increase healthy longevity, save lives and dollars, and improve Americans' quality of life. CDC is mandated to provide ongoing administrative, research, and technical support for the operations of the CPSTF. During its meetings, the CPSTF considers the findings of systematic reviews on existing research and practice-based

evidence and issues recommendations. CPSTF recommendations are not mandates for compliance or spending. Instead, they provide information about evidence-based options that decision makers and stakeholders can consider when they are determining what best meets the specific needs, preferences, available resources, and constraints of their jurisdictions and constituents. The CPSTF's recommendations, along with the systematic reviews of the evidence on which they are based, are compiled in the *The Community Guide*.

Matters Proposed for Discussion: Asthma (School-based Self-management Interventions for Asthma in Children and Adolescents); Health Equity (Supportive Housing Policies to Address Homelessness); and Obesity Prevention and Control (Effectiveness of Interventions that Include Technology to Address Weight-related Behaviors).
