ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[EPA-R04-RCRA-2019-0768; FRL-9993-42-Region 4]

Florida: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final authorization.

SUMMARY: The Environmental Protection Agency (EPA) is granting Florida final authorization for changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). The Agency published a Proposed rule on February 22, 2019, and provided for public comment. The Agency received two comments in support of authorizing the Florida program changes. These comments can be reviewed in the docket for this action under Docket ID No. EPA-R04-RCRA-2019-0768. No further opportunity for comment will be provided.

DATES: This final authorization is effective May 10, 2019.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R04-RCRA-2019-0768. All documents in the docket are listed on

the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

A. What changes to Florida's hazardous waste program is EPA authorizing with this action?

Florida submitted a complete program revision application, dated August 31, 2018, seeking authorization of changes to its hazardous waste program in accordance with 40 CFR 271.21. EPA now makes a final decision that Florida's hazardous waste program revisions that are being authorized are equivalent to, consistent with, and no less stringent than the Federal program, and therefore satisfy all of the requirements necessary to qualify for final authorization. For a list of State rules being authorized with this Final Authorization, please see the Proposed rule published in the February 22, 2019, **Federal Register** at 84 FR 5650.

B. What is codification and is EPA codifying Florida's hazardous waste program as authorized in this rule?

Codification is the process of placing citations and references to the State's statutes and regulations that comprise the State's authorized hazardous waste program into the Code of Federal Regulations. EPA does this by adding those citations and references to the authorized State rules in 40 CFR part 272. EPA is not codifying the authorization of Florida's revisions at this time. However, EPA reserves the ability to amend 40 CFR part 272, subpart K, for the authorization of Florida's program changes at a later date.

C. Statutory and Executive Order Reviews

This final authorization revises Florida's authorized hazardous waste

management program pursuant to Section 3006 of RCRA and imposes no requirements other than those currently imposed by State law. For further information on how this authorization complies with applicable executive orders and statutory provisions, please see the Proposed rule published in the February 22, 2019 **Federal Register** at 84 FR 5650. The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This final action will be effective May 10, 2019.

[EPA-HQ-SFUND-1986-0005; FRL-9993-34-Region 9]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Beckman Instruments Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 9 announces the deletion of the soil portion of the Beckman Instruments Superfund Site (Site) located in Porterville, California, from the National Priorities List (NPL). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This partial deletion pertains to the soil portion of the Site. The groundwater will remain on the NPL and is not being considered for deletion as part of this action. EPA and the State of California, through the Department of Toxic Substances Control, have determined that all appropriate response actions under CERCLA have been completed. However, the deletion of the soil portion of the Site does not preclude future actions under Superfund.

DATES: This action is effective May 10, 2019.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-HQ-SFUND-1986-0005. All documents in the docket are listed on the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or at the site information repositories. Locations, contacts, phone numbers and viewing hours are:

Superfund Records Center, 75 Hawthorne Street, Room 3110, San Francisco, California, Hours: 8 a.m.–4 p.m.; (415) 947-8717.

Site Repository: 41 W. Thurman Avenue, Porterville, California. Call (559) 784-0177 for hours of operation.

FOR FURTHER INFORMATION CONTACT:

Holly Hadlock, Superfund Project Manager, U.S. EPA, Region 9, (SFD-7-3), 75 Hawthorne Street, San Francisco, CA 94105, (415) 972-3171, email: hadlock.holly@epa.gov.

SUPPLEMENTARY INFORMATION: The portion of the Site to be deleted from the NPL is the soil at the Beckman

Instruments Superfund Site, Porterville, California. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** (84 FR 4033–4035) on February 14, 2019. The closing date for comments on the Notice of Intent for Partial Deletion was March 18, 2019. EPA received two comments that support the decision to delete the soil from the NPL. These comments have been placed in both the docket at www.regulations.gov (EPA-HQ-SFUND-1986-0005) and in the repositories listed above.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.
