

(f) If an earth station applicant or licensee in the 24.75–25.25 GHz, 27.5–28.35 GHz, 37.5–40 GHz, 47.2–48.2 GHz and/or 50.4–51.4 GHz bands enters into an agreement with an UMFUS licensee, their operations shall be governed by that agreement, except to the extent that the agreement is inconsistent with the Commission’s rules or the Communications Act.

(g) Any earth station authorizations issued pursuant to paragraph (a)(4), (c), (d)(4), or (e)(4) of this section shall be conditioned upon operation being in compliance with the criteria contained in the applicable paragraph.

(h) Paragraphs (e), (f), and (g) of this section contain new or modified information-collection and

recordkeeping requirements. Compliance with these information-collection and recordkeeping requirements will not be required until after approval by the Office of Management and Budget. The Commission will publish a document in the **Federal Register** announcing that compliance date and revising this paragraph (h) accordingly.

PART 30—UPPER MICROWAVE FLEXIBLE USE SERVICE

■ 5. The authority citation for part 30 is revised to read as follows:

Authority: 47 U.S.C. 151, 152, 153, 154, 301, 303, 304, 307, 309, 310, 316, 332, 1302, unless otherwise noted.

■ 6. Amend § 30.205 by:

- a. Designating the table in paragraph (b) as table 4;
- b. In newly designated table 4 to paragraph (b), revising the entry for “China Lake, CA” and adding an entry for “Edwards AFB, CA” immediately following the entry for “White Sands Missile Range, NM”; and
- c. Adding paragraph (c).

The revisions and additions read as follows:

§ 30.205 Federal coordination requirements.

* * * * *
(b) * * *

TABLE 4 TO PARAGRAPH (b)—COORDINATION AREAS FOR FEDERAL TERRESTRIAL SYSTEMS

Location	Agency	Coordination area (decimal degrees)
China Lake, CA	Navy	50 kilometer radius centered on latitude 35.614781 and longitude –117.454309.
* * *	* * *	* * *
Edwards AFB, CA	Air Force	20 kilometer radius centered on latitude 34.922905 and longitude –117.891219.
* * *	* * *	* * *

(c) In addition to the locations listed in table 4 to paragraph (b) of this section, requests may be submitted to the Commission for access to the 37.6–38.6 GHz band for specific additional military bases and ranges for the purpose of defense applications or national security when the proposed military operations cannot be accommodated in the 37–37.6 GHz band.

[Docket No. 151211999–6343–02]

RIN 0648–XG900

Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Common Pool Measures for Fishing Year 2019; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; possession and trip limit implementation; correction.

SUMMARY: NMFS is correcting a temporary rule that implemented measures for Northeast multispecies common pool vessels for the 2019 fishing year. These measures included possession and trip limits and the allocation of zero trips into the Closed Area II Yellowtail Flounder/Haddock Special Access Program for common pool vessels to target yellowtail flounder. The trip limit for Gulf of Maine winter flounder was incorrect.

DATES: Effective May 10, 2019, through April 30, 2020.

FOR FURTHER INFORMATION CONTACT: Spencer Talmage, Fishery Management Specialist, 978–281–9232.

SUPPLEMENTARY INFORMATION:

Need for Correction

NMFS published measures for the Northeast multispecies common pool fishery for fishing year 2019 on April 26, 2019 (84 FR 17926). These measures included possession and trip limits for all stocks of regulated multispecies.

The document incorrectly listed the trip limit for Gulf of Maine (GOM) winter flounder as 2,000 lb (907 kg) per trip, instead of the correct trip limit of 1,000 lb (454 kg) per trip. This correction will not adversely affect fishing operations. The corrected trip limit of 1,000 lb (454 kg) is the same as the 1,000 lb (454 kg) trip limit for the stock in the previous year. The 1,000 lb (454 kg) limit is based on past experience and anticipated fishing effort. There was no discussion of any increase because there was intended to be no change in the limit from the previous fishing year to prevent an overage from occurring in Trimester 1. This correction is necessary to prevent early trimester closures and overages of common pool quotas while facilitating optimized harvest.

Correction

In the **Federal Register** of April 26, 2019, in FR Doc. 2019–08441, on page 17927, table 1, is corrected to read as follows:

TABLE 1—2019 FISHING YEAR COMMON POOL POSSESSION AND TRIP LIMITS

Stock	2019 Trip limit
GB Cod (outside Eastern U.S./Canada Area)	250 lb (113 kg) per DAS, up to 500 lb (227 kg) per trip.
GB Cod (inside Eastern U.S./Canada Area)	
GB Cod [Closed Area II Yellowtail Flounder/Haddock SAP (for targeting haddock)].	500 lb (227 kg) per trip.
GOM Cod	50 lb (23 kg) per DAS, up to 100 lb (45 kg) per trip.
GB Haddock	100,000 lb (45,359 kg) per trip.
GOM Haddock	500 lb (227 kg) per DAS, up to 1,000 lb (454 kg) per trip.
GB Yellowtail Flounder	100 lb (45 kg) per trip.
SNE/MA Yellowtail Flounder	100 lb (45 kg) per DAS, up to 200 lb (91 kg) per trip.
Cape Cod (CC)/GOM Yellowtail Flounder	750 lb (340 kg) per DAS, up to 1,500 lb (680 kg) per trip.
American Plaice	750 lb (340 kg) per DAS, up to 1,500 lb (680 kg) per trip.
Witch Flounder	600 lb (272 kg) per trip.
GB Winter Flounder	250 lb (113 kg) per trip.
GOM Winter Flounder	1,000 lb (454 kg) per trip.
SNE/MA Winter Flounder	2,000 lb (907 kg) per DAS, up to 4,000 lb (1814 kg) per trip.
Redfish	Unlimited.
White Hake	1,500 lb (680 kg) per trip.
Pollock	Unlimited.
Atlantic Halibut	1 fish per trip.
Windowpane Flounder	Possession Prohibited.
Ocean Pout	
Atlantic Wolffish	

Classification

The Assistant Administrator for Fisheries, NOAA, finds good cause pursuant to 5 U.S.C. 553(b)(B) and 5 U.S.C. 553(d)(3) to waive prior notice and the opportunity for public comment and the 30-day delayed effectiveness period because it would be contrary to the public interest. This action corrects an error that inadvertently identified the trip limit of GOM winter flounder for the Northeast multispecies common pool fishery at 2,000 lb (907 kg) per trip rather than the correct 1,000 lb (454 kg) per trip.

Delay of this action would leave the common pool fishery with a trip limit

for GOM winter flounder that is too high to control catch and may lead to early closure of a trimester and quota overages. Any overage of the quota for either of the first two trimesters must be deducted from the Trimester 3 quota, which could substantially disrupt the trimester structure and intent to distribute fishing effort across the entire fishing year. An overage reduction in Trimester 3 would further reduce fishing opportunities for common pool vessels and likely result in early closure of Trimester 3. Additionally, any overage of the annual quota would be deducted from common pool's quota for the next fishing year, to the detriment of the fishery.

For the reasons above, delay of this action for prior notice and the opportunity for public comment and the 30-day delayed effectiveness period would undermine management objectives of the FMP and cause unnecessary negative economic impacts to the common pool fishery.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 8, 2019.

Alan D. Risenhoover,

*Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.*
