[Docket No. 181219999–8999–01]

RIN 0694–AH72

#### Addition of Certain Entities to the Entity List, Revision of an Entry on the Entity List, and Removal of an Entity From the Entity List

**AGENCY:** Bureau of Industry and Security, Commerce.

**ACTION:** Final rule.

**SUMMARY:** This final rule amends the Export Administration Regulations (EAR) by adding twelve entities, under a total of sixteen entries, to the Entity List. These twelve entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States and will be listed on the Entity List under the destinations of China, Hong Kong, Pakistan and the United Arab Emirates. This rule also modifies one existing entry on the Entity List under the destination of the United Arab Emirates. Finally, this rule removes one entity under the destination of the United Arab Emirates. The removal is made in connection with a request for removal that BIS received pursuant to sections of the EAR used for requesting removal or modification of an Entity List entry and a review of information provided in that request.

**DATES:** This rule is effective May 14, 2019.

**FOR FURTHER INFORMATION CONTACT:** Chair, End-User Review Committee, Office of the Assistant Secretary, Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482–5991, Email: [ERC@bis.doc.gov](mailto:ERC@bis.doc.gov).

**SUPPLEMENTARY INFORMATION:**

#### Background

The Entity List (15 CFR, Subchapter C, part 744, Supplement No. 4) identifies entities reasonably believed to be involved, or to pose a significant risk of being or becoming involved, in activities contrary to the national security or foreign policy interests of the United States. The Export Administration Regulations (EAR) (15 CFR, Subchapter C, parts 730–774) impose additional license requirements on, and limits the availability of most license exceptions for, exports, reexports, and transfers (in-country) to listed entities. The license review policy for each listed entity is identified in the “License review policy” column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** notice adding entities to the Entity List. BIS places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote, and makes all decisions to remove or modify an entry by unanimous vote.

#### ERC Entity List Decisions

##### *Additions to the Entity List*

This rule implements the decision of the ERC to add twelve entities, under a total of sixteen entries, to the Entity List; four of the entities being added are located in two destinations. The twelve entities are being added based on § 744.11 (License requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States) of the EAR. The sixteen entries consist of six entries located in China, four entries located in Hong Kong, one entry located in Pakistan and five entries in the United Arab Emirates (U.A.E.).

The ERC reviewed § 744.11(b) (Criteria for revising the Entity List) in making the determination to add these twelve entities to the Entity List. Under that paragraph, persons for whom there

is reasonable cause to believe, based on specific and articulable facts, that they have been involved, are involved, or pose a significant risk of being or becoming involved in activities that are contrary to the national security or foreign policy interests of the United States, along with those acting on behalf of such persons, may be added to the Entity List. Paragraphs (b)(1) through (5) of § 744.11 provide an illustrative list of activities that could be contrary to the national security or foreign policy interests of the United States. For each of the twelve entities described below, the ERC made the requisite determination under the standard set forth in § 744.11(b).

Pursuant to § 744.11(b) of the EAR, the ERC determined to add Longkui Qu and Taizhou CBM-Future New Material Science and Technology Co., Ltd., both located in China, to the Entity List for engaging in activities contrary to the national security interests of the United States. Specifically, these entities participated in the prohibited export of controlled technology concerning the manufacture of syntactic foam and supplying syntactic foam to PRC state-owned enterprises, PRC defense industrial corporations, and PRC military-related academic institutions.

The ERC also determined to add four companies—Avin Electronics Technology Co., Ltd. (AETC); Multi-Mart Electronics Technology Co., Ltd.; Tenco Technology Company Ltd.; and Yutron Technology Co. Ltd.—to the Entity List under the destinations of China and Hong Kong for actions contrary to the national security or foreign policy interests of the United States. Specifically, these entities have been attempting to procure U.S.-origin commodities that would ultimately provide material support to Iran’s weapons of mass destruction and military programs, in violation of U.S. export controls.

In addition, the ERC determined to add Impex Trade & Services, located in the destination of Pakistan, to the Entity List for actions contrary to the national security or foreign policy interests of the United States. Specifically, Impex Trade & Services has been involved in proliferation to unsafeguarded nuclear activities.

Under the destination of the United Arab Emirates (U.A.E.), the ERC determined that German Sky

International Trading Company LLC has been involved in activities that are contrary to the national security and foreign policy interests of the United States. Specifically, in accordance with § 744.11(b)(4), German Sky International Trading Company LLC is being added to the Entity List because it has prevented the accomplishment of end-user checks conducted by the Department of Commerce. Also under the destination of the U.A.E., the ERC has determined to add to the Entity List Emirates Hermes General Trading; Presto Freight International, LLC; Basha Asmath Shaikh; and Manohar Nair. These four entities have been involved in activities that are contrary to the national security and foreign policy interests of the United States as set forth in § 744.11(b). Emirates Hermes General Trading and Presto Freight International, LLC, operated by Basha Asmath Shaikh and Manohar Nair, procured U.S.-origin items for Complete Freight Solutions, a listed entity on the Entity List, and for Mahan Air, an Iranian airline that is subject to a BIS temporary denial order and has been designated a Specially Designated Global Terrorist by the U.S. Department of Treasury's Office of Foreign Assets Control.

Pursuant to § 744.11(b) of the EAR, the ERC determined that the conduct of these twelve entities raises sufficient concern that prior review of exports, reexports, or transfers (in-country) of all items subject to the EAR involving these entities, and the possible imposition of license conditions or license denials on shipments to the persons, will enhance BIS's ability to prevent violations of the EAR.

For the twelve entities, under a total of sixteen entries, being added to the Entity List, BIS imposes a license requirement for all items subject to the EAR and a license review policy of presumption of denial. The license requirements apply to any transaction in which items are to be exported, reexported, or transferred (in-country) to any of the entities or in which such entities act as purchaser, intermediate consignee, ultimate consignee, or end-user. In addition, no license exceptions are available for exports, reexports, or transfers (in-country) to the entities being added to the Entity List in this rule. The acronym "a.k.a." (also known as) is used in entries on the Entity List to identify aliases, thereby assisting exporters, reexporters, and transferors in identifying entities on the Entity List.

This final rule adds the following twelve entities, under a total of sixteen entries, to the Entity List:

### Modification to the Entity List

This final rule implements the decision of the ERC to modify one existing entry, Modest Marking LLC, which was added to the Entity List under the destination of the United Arab Emirates on January 26, 2018 (83 FR 3580). BIS is modifying the existing entry to add an alias. This final rule makes the following modifications to one entry on the Entity List:

#### United Arab Emirates

(1) *Modest Marketing LLC*, a.k.a. the following one alias:

—Argos Composites Trading LLC.  
P.O. Box 51436, Dubai, U.A.E.

#### Removal From the Entity List

This rule implements a decision of the ERC to remove DGL Clearing and Forwarding LLC, an entity located in the U.A.E., from the Entity List on the basis of a removal request. The entry for DGL Clearing and Forwarding LLC was added to the Entity List on January 26, 2018 (83 FR 3580). The ERC decided to remove this entry based on information BIS received pursuant to § 744.16 of the EAR and the review the ERC conducted in accordance with procedures described in Supplement No. 5 to part 744.

This final rule implements the decision to remove the following entity located in the U.A.E. from the Entity List:

#### United Arab Emirates

(1) *DGL Clearing and Forwarding LLC*,  
P.O. Box 94353, Abu Dhabi, U.A.E.

#### Savings Clause

Shipments of items removed from eligibility for a License Exception or for export or reexport without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export or reexport, on May 14, 2019, pursuant to actual orders for export or reexport to a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export or NLR.

#### Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (Title XVII, Subtitle B of Pub. L. 115–232), which provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule. As set forth in § 1768 of ECRA, all delegations, rules,

regulations, orders, determinations, licenses, or other forms of administrative action that have been made, issued, conducted, or allowed to become effective under the Export Administration Act of 1979 (50 U.S.C. 4601 *et seq.*) (as in effect prior to August 13, 2018, and as continued in effect pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*) and Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as amended by Executive Order 13637 of March 8, 2013, 78 FR 16129 (March 13, 2013), and as extended by the Notice of August 8, 2018, 83 FR 39871 (August 13, 2018)), or the Export Administration Regulations, and are in effect as of August 13, 2018, shall continue in effect according to their terms until modified, superseded, set aside, or revoked under the authority of ECRA.

#### Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been determined to be not significant for purposes of Executive Order 12866. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which includes, among other things, license applications, and carries a burden estimate of 43.8 minutes for a manual or electronic submission.

Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule. You may send comments regarding the collection of

information associated with this rule, including suggestions for reducing the burden, to Jasmeet K. Seehra, Office of Management and Budget (OMB), by email to [Jasmeet.K.Seehra@omb.eop.gov](mailto:Jasmeet.K.Seehra@omb.eop.gov), or by fax to (202) 395–7285.

3. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to sec. 1762 of the Export Control Reform Act of 2018 (Title XVII, Subtitle B of Pub. L. 115–232), which was included in the John S. McCain National Defense Authorization Act for Fiscal Year 2019, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. This action involves the removal of an entity from the Entity List. Removals from the Entity List involve interagency deliberation and result from review of public and non-public sources, including, where applicable, sensitive law enforcement information and classified information, and the measurement of such information against the Entity List removal criteria. This information is reviewed according to the procedures and criteria for evaluating removal requests from the Entity List, as set forth in 15 CFR 744.11, 15 CFR 744.16, and 15 CFR part 744, Supplement No. 5. For reasons of national security, BIS is not at liberty to provide to the public detailed information on which the ERC relies to make the decisions to remove these entities. In addition, the information included in a removal request is exchanged between the applicant and the ERC, which by law (sec. 1761(h) of the ECRA), BIS is restricted from sharing with the public. Moreover, removal requests from the Entity List may contain confidential business information that is necessary for the extensive review conducted by the ERC.

6. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required and none has been prepared.

#### List of Subjects in 15 CFR Part 744

Exports, Reporting and recordkeeping requirements, Terrorism.

Accordingly, part 744 of the Export Administration Regulations (15 CFR parts 730–774) is amended as follows:

**PART 744—[AMENDED]**

■ 1. The authority citation for 15 CFR part 744 continues to read as follows:

**POSTAL SERVICE**

**39 CFR Part 111**

**New Electronic Signature Option**

**AGENCY:** Postal Service™.  
**ACTION:** Final rule.

**SUMMARY:** The Postal Service is amending *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) to include a more flexible option for package addressees to provide an electronic signature indicating delivery of a package.

**DATES:** Effective June 23, 2019.

**FOR FURTHER INFORMATION CONTACT:** Karen F. Key at (202) 268-7492, Tiffany S. Jesse at (202) 268-7303, or Garry Rodriguez at (202) 268-7281.

**SUPPLEMENTARY INFORMATION:** The Postal Service published a notice of proposed rulemaking on March 15, 2019, (84 FR 9470-9471) to amend the DMM in various sections to offer a more flexible option for package addressees (or their representatives) to provide an electronic

signature indicating delivery of a package, when the sender chooses the following signature services: Priority Mail Express®, Signature Confirmation™ service, and Insurance for more than \$500. Generally, current practice is for the recipient of the package to sign at the time of delivery. The Postal Service received one formal response to the proposed rule, which included multiple comments and suggestions. The responder was generally in agreement with the continuing efforts of the Postal Service to enhance the level of service. However, the responder had several comments and suggestions as follows:

*Comment:* The Postal Service should resolve ambiguity in the process of registering for the electronic signature service and providing the signature.

*Response:* To sign up for the Electronic Signature Online (eSOL™) service, a customer must be an Informed Delivery® registered user or must register before they enroll for the service. When a customer logs on to their Informed Delivery account, they will see the eSOL icon to proceed with the enrollment. The signature will be collected/provided through an electronic process by computer or mobile phone.

*Comment:* The Postal Service should clarify what effects the transition to the

electronic signature service may have on the ability to provide its service, or how customers will be affected by the transition to this new service.

*Response:* The Postal Service does not expect any transition issues to arise. After signing up and providing an electronic signature, the customer would receive notice via Informed Delivery of each eligible package expected to arrive, and an option to use the electronic signature for that package. Thus, the only impact on customers is that they can receive Priority Mail Express, Signature Confirmation and items Insured for over \$500 more conveniently if they are registered for Informed Delivery and eSOL. The Postal Service will not leave a PS Form 3849, We Redeliver for You! notice and the customer would not be required to either be home for the delivery or pick up the item from a Post Office or schedule a redelivery.

*Comment:* The third comment questioned the potential of package theft, and the possibility of the Postal Service collecting data on the prevalence of such thefts.

*Response:* eSOL is an option for each item. If the item does not fit in the customer's mailbox, the customer has the option of providing instructions to their carrier indicating where to leave the item. The Postal Service will continue to offer the option of requiring
