

Under section 1137 of the Act, States are required to use an income and eligibility verification system to administer specified federally funded benefit programs, including the state-funded state supplementary payment programs under Title XVI of the Act. To assist the State Agencies in determining entitlement to and eligibility for benefits under those programs, as well as other federally funded benefit programs, SSA verifies the Social Security number (SSN) and discloses certain data about applicants (and in limited circumstances, members of an applicant's household) for state-administered benefits from its Privacy Act SORs.

SSA has separate agreements with the State Agencies, which describe the information SSA will disclose for specified federally funded benefit programs.

**Categories of Individuals:** The individuals whose information is involved in this matching program are those who apply for federally funded, state-administered benefits, as well as current beneficiaries, recipients, and annuitants under the programs covered by the Agreement.

**Categories of Records:** The maximum number of records involved in this matching activity is the number of records maintained in SSA's SORs. Data elements disclosed in computer matching governed by the Agreement are Personally Identifiable Information from SSA's specified SORs, including names, SSNs, addresses, amounts, and other information related to SSA's benefits and earnings information. Specific listings of data elements are available at: <http://www.ssa.gov/dataexchange/>.
