

- Explore opportunities for enhancing the interoperability of GPS with other emerging international GNSS.

- Prioritize current and planned GPS capabilities and services while assessing future PNT architecture alternatives with a focus on affordability.

- Assess economic impacts of GPS/GNSS on the United States and in select international regions, with a consideration towards effects of potential PNT service disruptions if radio spectrum interference is introduced.

- Review the potential benefits, perceived vulnerabilities, and any proposed regulatory constraints to accessing foreign Radio Navigation Satellite Service (RNSS) signals in the United States and subsequent impacts on multi-GNSS receiver markets.

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.
