Notice of Intent of Waiver With Respect to Land; Willoughby Lost Nation Municipal Airport, Willoughby, Ohio

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: The FAA is considering a proposal to change 1.021 acres of airport land from aeronautical use to non-aeronautical use and to authorize the sale of airport property located at Willoughby Lost Nation Municipal Airport, Willoughby, Ohio. The aforementioned land is not needed for aeronautical use.

The property is located north east of the Runway 28 threshold, west of Reynolds Road and south of the City of Mentor Fire Station No. 4. The parcel is obligated as aeronautical use within the airport boundary as depicted on the current Exhibit A. There is no current existing aeronautical use. The proposed non-aeronautical use of the property is for a Regional Emergency Response

Facility to be developed by the City of Mentor.

DATES: Comments must be received on or before June 19, 2019.

ADDRESSES: Documents are available for review by appointment at the FAA Detroit Airports District Office, Evonne M. McBurrows, Program Manager, 11677 South Wayne Road, Suite 107, Romulus, Michigan Telephone: (734) 229-2945/Fax: (734)229-2950 and Lake County Ohio Port and Economic Development Authority, One Victoria Place, Suite 265A, Painesville, Ohio, 44077, (440)357-2290.

Written comments on the Sponsor's request must be delivered or mailed to: Evonne M. McBurrows, Program Manager, Federal Aviation Administration, Detroit Airports District Office, 11677 South Wayne Road, Suite 107, Romulus, Michigan 48174, Telephone Number: (734) 229-2945/ FAX Number: (734) 229-2950.

FOR FURTHER INFORMATION CONTACT: Evonne M. McBurrows, Program Manager, Federal Aviation Administration, Detroit Airports District Office, 11677 South Wayne Road, Suite 107, Romulus, Michigan 48174. Telephone Number: (734) 229-2945/ FAX Number: (734) 229-2950.

SUPPLEMENTARY INFORMATION: In accordance with section 47107(h) of Title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

The parcel is obligated as aeronautical use within the airport boundary as depicted on the current Exhibit A. It is currently vacant land and there is no existing aeronautical use. The land was acquired with federal funds under AIP Grant 85-2-3-39-0090-0185. Lake County Ohio Port and Economic Development Authority is proposing to sell the land to the City of Mentor for the development of a non-aeronautical Regional Emergency Response Facility. The airport will receive fair market value for the sale of this land.

The disposition of proceeds from the sale of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999 (64 FR 7696).

This notice announces that the FAA is considering the release of the subject airport property at the Willoughby Lost Nation Municipal Airport, Willoughby, Ohio from federal land covenants, subject to a reservation for continuing right of flight as well as restrictions on

the released property as required in FAA Order 5190.6B section 22.16. Approval does not constitute a commitment by the FAA to financially assist in the disposal of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Dallas And Ellis Counties, Texas

AGENCY: Texas Department of Transportation (TxDOT), Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Federal Notice of Intent to prepare an Environmental Impact Statement (EIS).

SUMMARY: The FHWA, on behalf of TxDOT, is issuing this notice to advise the public that an EIS will be prepared for a proposed transportation project to construct a six-lane new location frontage road system between United States 67 (US 67) and Interstate 35 East (IH 35E) through Dallas and Ellis Counties, Texas.

FOR FURTHER INFORMATION CONTACT: Carlos Swonke, Division Director, TxDOT Environmental Affairs Division, 125 East 11th Street, Austin, Texas 78701; Phone (512) 416-2734; email: carlos.swonke@txdot.gov. TxDOT's normal business hours are 8:00 a.m.–5:00 p.m. (central time), Monday through Friday.

SUPPLEMENTARY INFORMATION: The environmental review, consultation, and other actions required by applicable

Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

TxDOT will prepare an EIS for the proposed construction of a six-lane new location frontage road system for the portion of the proposed Loop 9 Southeast roadway system between United States 67 (US 67) and Interstate 35 East (IH 35E) through Dallas and Ellis Counties, Texas, which is known as "Segment A." The project is approximately 9.4-miles in length and would pass through the communities of Cedar Hill, Midlothian, Ovilla, Glenn Heights, and Red Oak. The new location frontage road system would include an eastbound and westbound frontage road facility, each consisting of three 12 foot (ft.) lanes, an 8-ft inside shoulder, and an 8 ft. outside shoulder for bicycle accommodations within the rural section of the proposed roadway. The proposed project ROW would include a median (358 to 512 ft. wide) that would accommodate the future construction of an ultimate access-controlled mainlane facility. Construction of the ultimate access-controlled mainlane facility would be based on projected traffic and funding and would require additional environmental analysis prior to construction.

The EIS will evaluate a range of build alternatives and a no-build alternative. Possible build alternatives include the three alternatives developed to date to be considered and evaluated in the EIS. In general, from Tar Road to approximately 0.9 miles east of S. Joe Wilson Road, a distance of approximately 2.8 miles, three build alternatives are being considered. East and west of these limits, each alternative shares a common alignment to the project termini.

Alternative 1 (2.78 miles), the northernmost alternative, diverges from the common alignment at Tar Road heading east, then immediately turns northeast before crossing S. Joe Wilson Road and converging back with the common alignment.

Alternative 2 (2.76 miles), the central most alternative, diverges from the common alignment at Tar Road heading east, then immediately turns northeast; however, this alignment follows a straighter path between Tar Road and S. Joe Wilson Road. After S. Joe Wilson Road, the alternative continues in a northeast direction before converging back with the common alignment.

Alternative 3 (2.84 miles), the southernmost alternative, diverges from the common alignment at Tar Road and
