Approval of Air Quality Implementation Plans; New York; Cross-State Air Pollution Rule; NO_x Ozone Season Group 2, NO_x Annual, and SO₂ Group 1 Trading Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve a revision to the New York State Implementation Plan (SIP) addressing requirements of the Cross-State Air Pollution Rule (CSAPR). Under the CSAPR, large electricity

generating units in New York are subject to Federal Implementation Plans (FIPs) requiring the units to participate in CSAPR federal trading programs for ozone season emissions of nitrogen oxides (NO_x), annual emissions of NO_x, and annual emissions of sulfur dioxide (SO₂). This action approves into New York's SIP the State's regulations that replace the default allowance allocation provisions of the CSAPR federal trading programs for ozone season NO_x, annual NO_x, and annual SO₂ emissions. The approval is being issued as a direct final rule without a prior proposed rule because EPA views it as uncontroversial and does not anticipate adverse comment.

DATES: This direct final rule will be effective on *June 20, 2019*, without further notice, unless the EPA receives adverse comment by June 20, 2019. If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.
