DEPARTMENT OF THE TREASURY

Privacy Act of 1974; System of Records

AGENCY: Department of the Treasury.

ACTION: Notice of a Modified System of Records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, the Department of the Treasury (“Treasury” or the “Department”) proposes to modify a current Treasury system of records titled, “Treasury .007—Personnel Security System—System of Records.” This system supports the Department in conducting end-to-end personnel security, fitness, suitability and credentialing processes. This system of records contains records related to employee and contractor vetting as well as investigative, administrative, adjudicative, and/or determination information for decisions concerning whether an individual is suitable or fit for Government employment or eligible to access classified national security information. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of system of records maintained by the agency (5 U.S.C. 552a(e)(4)).

DATES: Submit comments on or before June 21, 2019. The new routine uses will be applicable on June 21, 2019 unless Treasury receives comments and

determines that changes to the system of records notice are necessary.

ADDRESSES: Comments may be submitted to the Federal eRulemaking Portal electronically at <http://www.regulations.gov>. Comments can also be sent to the Deputy Assistant Secretary for Privacy, Transparency, and Records, Department of the Treasury, 1500 Pennsylvania Avenue NW, Washington, DC 20220, Attention: Revisions to Privacy Act Systems of Records. All comments received, including attachments and other supporting documents, are part of the public record and subject to public disclosure. All comments received will be posted without change to www.regulations.gov, including any personal information provided. You should submit only information that you wish to make publicly available.

FOR FURTHER INFORMATION CONTACT: For general questions and for privacy issues please contact: Deputy Assistant Secretary for Privacy, Transparency, and Records (202-622-5710), Department of the Treasury, 1500 Pennsylvania Avenue NW, Washington, DC 20220.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, Treasury proposes to modify a current Treasury system of records titled, “Treasury .007—Personnel Security System.”

The Department of the Treasury is an early adopter of a Department of Defense (DoD)-provided electronic adjudicative case management shared service through DoD’s Defense Information System for Security (“DISS”) (system of records notice (SORN): “DMDC 24 DoD—Defense Information System for Security (DISS)”). DISS maintains information on security clearance access, personnel security eligibility, suitability for Government employment, fitness to perform work for or on behalf of the U.S. Government as a contractor, and eligibility for logical and physical access to Treasury controlled facilities and information systems. It also provides an all-inclusive medium to document personnel security adjudicative actions within the subscribing agency, allowing users to provide investigation and adjudication updates to security managers and other security officials. All users of DISS must be appropriately screened, investigated, and granted access based on the user’s specific functions, security eligibility, and access level. Treasury maintenance of its records—currently outlined in Treasury .007—within DISS will be used to ensure Treasury is upholding the highest standards of integrity,

loyalty, conduct, and security among its employees and contract personnel. It will also help streamline the vetting process by utilizing a single system for all phases of vetting operations to include adjudication, continuous evaluation/continuous vetting, and case management, while maintaining compliance with all applicable legal, regulatory and policy authorities.

To allow Treasury's participation and continued involvement in DISS, Treasury is implementing the changes to the SORN listed below:

(1) To add the following categories of records maintained in the system: "to include names and addresses of neighbors and references," "to include names of supervisors and colleagues," "publicly available social media information," "position sensitivity; status of current adjudicative action; status of security clearance eligibility and/or access, suitability, fitness, or Homeland Security Presidential Directive-12 (HSPD-12) Personal Identity Verification (PIV) determinations; and investigative records related to initial vetting, reinvestigation, continuous evaluation, and/or continuous vetting." To update the categories of records to state that "[t]his system maintains information collected as part of the investigative vetting process. This information may include the individual's personally identifiable information; residential, educational, employment, and mental health history; financial details, and criminal and disciplinary histories; to include:"

(2) To update existing applicable authorities for maintenance of the system;

(3) To clarify the purpose(s) of records stored in the system, by modifying the clause "investigatory information," to the following: "investigative and related administrative, adjudicative, and other information necessary";

(4) To add routine uses to share information (a) with other federal agencies or federal entities as required by the Office of Management and Budget (OMB) Memorandum 17-12, "Preparing for and Responding to a Breach of Personally Identifiable Information," dated January 3, 2017, to assist Treasury in responding to a suspected or confirmed breach or prevent, minimize, or remedy the risk of harm to the requesters, Treasury, the Federal Government, or national security, and (b) with the Department of Defense, other Federal agency or other appropriate entity to authorize Treasury's participation in DISS, which allows Treasury to transfer the records covered by Treasury .007 to DISS for

storage and maintenance only; though records will be maintained in a DoD-managed system, only Treasury-affiliated users will have access to these records.

(5) To update the storage of records in the system;

(6) To add social security number (SSN), date of birth, place of birth, Investigative Service Provider's investigation number, DISS adjudicative case identification number or some combination thereof as sources for retrieval of records;

(7) To update the agency's safeguards;

(8) To clarify that records may be sourced not only from the individual, but from authorized investigative, employment, and security entities as well;

(9) To update the policies and practices for retention and disposal of records; and

(10) Other changes throughout the document are editorial in nature and consist primarily of changes to clarify language and processes.

This modified system will be included in Treasury's inventory of record systems. Below is the description of the Department of the Treasury, Treasury .007—Personnel Security System.

Treasury has provided a report of this system of records to the Committee on Oversight and Government Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and OMB, pursuant to 5 U.S.C. 552a(r) and OMB Circular A-108, "Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act," dated December 23, 2016.

Deputy Assistant Secretary for Privacy, Transparency, and Records.
