[EPA-R08-OAR-2018-0235; FRL-9993-66-Region 8]

**Approval and Promulgation of Air Quality Implementation Plans; State of Montana; Missoula PM<sub>10</sub> Nonattainment Area Limited Maintenance Plan and Redesignation Request****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving the Limited Maintenance Plan (LMP), submitted by the State of Montana to the EPA on August 3, 2016, for the Missoula moderate particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM<sub>10</sub>) nonattainment area (Missoula NAA) and concurrently redesignating the Missoula NAA to attainment of the 24-hour PM<sub>10</sub> National Ambient Air Quality Standard (NAAQS). In order to approve the LMP and redesignation, the EPA is determining that the Missoula NAA has attained the 1987 24-hour PM<sub>10</sub> NAAQS of 150 µg/m<sup>3</sup>. This determination is based upon monitored air quality data for the PM<sub>10</sub> NAAQS during the years 2015–2017. The EPA is also approving the Missoula LMP as meeting the appropriate transportation conformity requirements. Lastly, the EPA is approving certain rule revisions to the Missoula City-County Air Pollution Control Program submitted on August 3, 2016, and August 22, 2018.

**DATES:** Effective June 24, 2019.

**ADDRESSES:** The EPA has established a docket for this action under Docket ID Number EPA-R08-OAR-2018-0235. All documents in the docket are listed on the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through [www.regulations.gov](http://www.regulations.gov), or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

**SUPPLEMENTARY INFORMATION:**

Throughout this document “we,” “us,” and “our” means the EPA.

**I. Background**

The Missoula NAA encompasses the City of Missoula and was designated nonattainment for the 1987 24-hour PM<sub>10</sub> NAAQS and classified as moderate under section 107(d)(4)(B), following enactment of the Clean Air Act (CAA) Amendments of 1990. See 56 FR 56694 (November 6, 1991). On August 30, 1995, the EPA fully approved the Missoula NAA PM<sub>10</sub> plan including reasonably available control measures (RACM), an attainment demonstration, emissions inventory, quantitative milestones, and control and contingency requirements.

The factual and legal background for this action is discussed in detail in our March 5, 2019 (84 FR 7846) proposed approval of certain rule revisions to the Missoula City-County Air Pollution Control Program, the Missoula Limited Maintenance Plan, the Missoula LMP as meeting the appropriate transportation conformity requirements, and concurrent redesignation of the Missoula NAA to attainment of the NAAQS for PM<sub>10</sub>.

**II. Response to Comments**

The public comment period on the EPA’s proposed rule opened on March 5, 2019, the date of its publication in the **Federal Register**, (84 FR 7846), and closed on April 4, 2019. During this time, the EPA received no comments.

**III. Final Action**

The EPA is making the determination that the Missoula NAA has attained the 1987 24-hour PM<sub>10</sub> NAAQS of 150 µg/m<sup>3</sup>. This determination is based upon monitored air quality data for the PM<sub>10</sub> NAAQS during the years 2015–2017. Additionally, the EPA is approving the Missoula NAA LMP submitted on August 3, 2016, as meeting the applicable CAA requirements, and we have determined the LMP to be sufficient to provide for maintenance of the PM<sub>10</sub> NAAQS over the course of the 10-year maintenance period out to 2029. The EPA is also approving the Missoula LMP as meeting the appropriate transportation conformity requirements found in 40 CFR 93, subpart A. The EPA is approving most of the revisions submitted on August 3, 2016 and August 22, 2018 (Chapter 4 revisions). Specifically, the EPA is approving revisions to the eight chapters on

Definitions, Failure to Attain Standards, Emergency Episode Avoidance Plan, Industrial Sources, Fugitive Particulate, Solid Fuel Burning Devices, Administrative Procedures, and Penalties. As identified in Section IV of the March 5, 2019 proposed approval, the EPA is not acting on Chapter 9, rule 9.204 in the August 3, 2016 submittal or the IBR revisions in the August 22, 2018 submittal. Lastly, this rule redesignates the Missoula NAA from nonattainment to attainment of the PM<sub>10</sub> NAAQS. A list of the revisions to the Missoula City-County Air Pollution Control Program that the EPA is approving is outlined in Table 1 below.

**IV. Incorporation by Reference**

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Regulations described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through [www.regulations.gov](http://www.regulations.gov) and at the EPA Region 8 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the State implementation plan (SIP), have been incorporated by reference by the EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective

date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.

#### V. Statutory and Executive Orders Review

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because

application of those requirements would be inconsistent with the CAA; and

- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 23, 2019. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
