BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 95**

[Docket No. 31225; Amdt. No. 546]

IFR Altitudes; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts miscellaneous amendments to the required IFR (instrument flight rules)

altitudes and changeover points for certain Federal airways, jet routes, or direct routes for which a minimum or maximum en route authorized IFR altitude is prescribed. This regulatory action is needed because of changes occurring in the National Airspace System. These changes are designed to provide for the safe and efficient use of the navigable airspace under instrument conditions in the affected areas.

DATES: Effective 0901 UTC, June 20, 2019.

FOR FURTHER INFORMATION CONTACT: Thomas J. Nichols, Flight Procedures and Airspace Group, Flight Technologies and Procedures Division, Flight Standards Service, Federal Aviation Administration. Mailing Address: FAA Mike Monroney Aeronautical Center, Flight Procedures and Airspace Group, 6500 South MacArthur Blvd., Registry Bldg 29, Room 104, Oklahoma City, OK 73125. Telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This amendment to part 95 of the Federal Aviation Regulations (14 CFR part 95) amends, suspends, or revokes IFR altitudes governing the operation of all aircraft in flight over a specified route or any portion of that route, as well as

the changeover points (COPs) for Federal airways, jet routes, or direct routes as prescribed in part 95.

The Rule

The specified IFR altitudes, when used in conjunction with the prescribed changeover points for those routes, ensure navigation aid coverage that is adequate for safe flight operations and free of frequency interference. The reasons and circumstances that create the need for this amendment involve matters of flight safety and operational efficiency in the National Airspace System, are related to published aeronautical charts that are essential to the user, and provide for the safe and efficient use of the navigable airspace. In addition, those various reasons or circumstances require making this amendment effective before the next scheduled charting and publication date of the flight information to assure its timely availability to the user. The effective date of this amendment reflects those considerations. In view of the close and immediate relationship between these regulatory changes and safety in air commerce, I find that notice and public procedure before adopting this amendment are impracticable and contrary to the public interest and that

good cause exists for making the amendment effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated

impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 95

Airspace, Navigation (air).

Issued in Washington, DC, on May 17, 2019.

Rick Domingo,

Executive Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the

Administrator, part 95 of the Federal Aviation Regulations (14 CFR part 95) is amended as follows effective at 0901 UTC, June 20, 2019.

■ 1. The authority citation for part 95 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44719, 44721.

■ 2. Part 95 is amended to read as follows:

RIN 0694-AH78

Revisions to Country Group Designations for Venezuela and Conforming Changes for License Requirements

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: In this final rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) to remove Venezuela from Country Group B, which affords favorable treatment for certain exports of National Security-controlled items, and moves Venezuela to Country Group D:1, which lists countries of national security concern. This final rule makes these changes to the EAR to reflect current national security concerns related to Venezuela, e.g., the introduction of foreign military personnel and equipment into

Venezuela, and to better protect U.S. national security. The changes in this final rule also better align the Country Group designations for Venezuela with other EAR national security-related provisions that already apply to Venezuela, e.g., the military end-use and end-user controls that apply to certain items for export, reexport, or transfer (in-country) and provisions that are specific to countries subject to U.S. arms embargoes. In addition, this final rule adds Venezuela to Country Groups D:2-4, which list countries of nuclear, chemical and biological weapons, and missile technology concern, respectively.

DATES: This rule is effective May 24, 2019.

SUPPLEMENTARY INFORMATION:

Background

In this final rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) to implement a decision to remove Venezuela from Country Group B, which affords favorable treatment for certain exports of National Security-

controlled items, and moves Venezuela to Country Group D:1, which lists countries of national security concern (Supplement No. 1 to part 740). In addition, this final rule adds Venezuela to Country Groups D:2-4, which list countries of nuclear, chemical and biological weapons, and missile technology concern, respectively.

This final rule protects U.S. national security interests by making changes to the EAR to address current national security concerns related to Venezuela, e.g., the introduction of foreign military personnel and equipment into Venezuela, and better align the Country Group designation for Venezuela with other EAR national security related provisions that apply to Venezuela. For example, Venezuela is included in the military end-use and end-user control in § 744.21: Restrictions on certain 'Military end uses' in the People's Republic of China or for a 'Military end use' or 'Military end user' in Russia or Venezuela. Venezuela is also already designated in Country Group D:5 as a U.S. Arms Embargoed Country, meaning that the general restrictions on the use of license exceptions in § 740.2(a)(12) for 9x515 and "600 series" items apply, along with the more restrictive license review policy for national security controlled items in § 742.4(b)(1)(ii) for 9x515 and "600 series" items.
