

Order, Amendment of Part 74 of the Commission's Rules Regarding FM Translator Interference, FCC 19-40, MB Docket No. 18-119, adopting proposals to streamline the rules relating to interference caused by FM translators and to expedite the translator interference complaint resolution process. These measures are designed to limit or avoid protracted and contentious interference disputes, provide translator licensees additional investment certainty and flexibility to remediate interference, and provide affected stations earlier and expedited resolution of interference complaints.

In the FM Translator Interference Report and Order, the Commission adopted its proposal to offer additional flexibility to FM translator licensees, by allowing them to resolve interference issues using the effective and low-cost method of submitting a minor modification application to change frequency to any available same-band FM channel. This method will reduce the number of opposition pleadings filed and the obligation to defend an interference claim.

Specifically, the FM Translator Interference Report and Order pertains to this Information Collection as it modifies Section 74.1233(a)(1) of the rules to define an FM translator station's change to any available same-band frequency using a minor modification application, filed using FCC Form 2100, Schedule 349, upon a showing of interference to or from any other broadcast station. Prior to the FM Translator Interference Report and Order, if an existing FM translator caused actual interference, as prohibited by Section 74.1203(a), it was limited to remedial channel changes, filing FCC Form 2100, Schedule 349 as a minor change application, to only first, second, or third adjacent, or IF channels. A change to any other channel was considered a major change on FCC Form 2100, Schedule 349, which could only be submitted during a filing window. The FM Translator Interference Report and Order enables more translator stations to cure interference by simply changing channels within the same band by filing FCC Form 2100, Schedule 349 as a minor change application, rather than other costlier and less efficient remedies.
