

described in individual information collection requests. These data will be compared to benchmarks from the relevant CAHPS source surveys when available.

Collection of these data from people who have been identified through CMS administrative data and administrative flags as part of specific minority populations will also serve as a critical validation step of this method for identifying difficult-to-study populations, thus making it easier to study beneficiaries in these groups in the future. *Form Number:* CMS-10701 (OMB control number: 0938-NEW); *Frequency:* Yearly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 10,000; *Total Annual Responses:* 10,000; *Total Annual Hours:* 3,333. (For policy questions regarding this collection contact Luis Perez at 410-786-8557.)

### Food and Drug Administration

[Docket No. FDA-2018-D-1456]

#### **Maximal Usage Trials for Topically Applied Active Ingredients Being Considered for Inclusion in an Over-the-Counter Monograph: Study Elements and Considerations; Guidance for Industry; Availability; Correction**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice; correction.

**SUMMARY:** The Food and Drug Administration is correcting a notice entitled “Maximal Usage Trials for Topically Applied Active Ingredients Being Considered for Inclusion in an Over-the-Counter Monograph: Study Elements and Considerations; Guidance for Industry; Availability” that appeared in the **Federal Register** of May 10, 2019. The document announced the availability of a guidance for industry. The document was published with the incorrect docket number. This document corrects that error.

**FOR FURTHER INFORMATION CONTACT:** Kristen Hardin, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New

Hampshire Ave., Bldg. 22, Rm. 5443, Silver Spring, MD 20993-0002, 240-402-4246.

**SUPPLEMENTARY INFORMATION:** In the **Federal Register** of Friday, May 10, 2019 (84 FR 20633), in FR Doc. 2019-09692, the following correction is made:

On page 20633, in the first column, in the headings of the document, “[Docket No. FDA-2019-D-1798]” is corrected to read “[Docket No. FDA-2018-D-1456].”

Dated: May 24, 2019.

### Food and Drug Administration

[Docket No. FDA-2018-P-4851]

#### **Determination That LUPRON (Leuprolide Acetate) Injection, 1 Milligram/0.2 Milliliter, Was Not Withdrawn From Sale for Reasons of Safety or Effectiveness**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA or Agency) has determined that LUPRON (leuprolide acetate) injection, 1 milligram (mg)/0.2 milliliter (mL), was not withdrawn from sale for reasons of safety or effectiveness. This determination means that FDA will not begin procedures to withdraw approval of abbreviated new drug applications (ANDAs) that refer to this drug product, and it will allow FDA to continue to approve ANDAs that refer to the product as long as they meet relevant legal and regulatory requirements.

**FOR FURTHER INFORMATION CONTACT:** Meadow Platt, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6224, Silver Spring, MD 20993-0002, 301-796-1830, [Meadow.Platt@fda.hhs.gov](mailto:Meadow.Platt@fda.hhs.gov).

**SUPPLEMENTARY INFORMATION:** In 1984, Congress enacted the Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98-417) (the 1984 amendments), which authorized the approval of duplicate versions of drug products under an ANDA procedure. ANDA applicants must, with certain exceptions, show that the drug for which they are seeking approval contains the same active ingredient in the same strength and

dosage form as the “listed drug,” which is a version of the drug that was previously approved. ANDA applicants do not have to repeat the extensive clinical testing otherwise necessary to gain approval of a new drug application (NDA).

The 1984 amendments include what is now section 505(j)(7) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)(7)), which requires FDA to publish a list of all approved drugs. FDA publishes this list as part of the “Approved Drug Products With Therapeutic Equivalence Evaluations,” which is known generally as the “Orange Book.” Under FDA regulations, drugs are removed from the list if the Agency withdraws or suspends approval of the drug’s NDA or ANDA for reasons of safety or effectiveness or if FDA determines that the listed drug was withdrawn from sale for reasons of safety or effectiveness (21 CFR 314.162).

A person may petition the Agency to determine, or the Agency may determine on its own initiative, whether a listed drug was withdrawn from sale for reasons of safety or effectiveness. This determination may be made at any time after the drug has been withdrawn from sale, but must be made prior to approving an ANDA that refers to the listed drug (§ 314.161 (21 CFR 314.161)). FDA may not approve an ANDA that does not refer to a listed drug.

LUPRON (leuprolide acetate) injection, 1 mg/0.2 mL, is the subject of NDA 019010, held by Abbvie Endocrine, Inc., and initially approved on April 9, 1985. LUPRON is indicated for palliative treatment of advanced prostatic cancer. LUPRON (leuprolide acetate) injection, 1 mg/0.2 mL, is currently listed in the “Discontinued Drug Product List” section of the Orange Book.

Hetero Labs Limited submitted a citizen petition dated December 20, 2018 (Docket No. FDA-2018-P-4851), under 21 CFR 10.30, requesting that the Agency determine whether LUPRON (leuprolide acetate) injection, 1 mg/0.2 mL, was withdrawn from sale for reasons of safety or effectiveness.

After considering the citizen petition and reviewing Agency records and based on the information we have at this time, FDA has determined under § 314.161 that LUPRON (leuprolide acetate) injection, 1 mg/0.2 mL, was not withdrawn for reasons of safety or effectiveness. The petitioner has identified no data or other information suggesting that LUPRON (leuprolide acetate) injection, 1 mg/0.2 mL, was withdrawn for reasons of safety or effectiveness. We have carefully reviewed our files for records
