

OMB Approval Number: 3072–0018
(Expired March 31, 2019).

Abstract: The Shipping Act of 1984 (the Act), 46 U.S.C. 40101–41309 (2006), as modified by Public Law 105–258 (The Ocean Shipping Reform Act of 1998) and Section 424 of Public Law 105–383 (The Coast Guard Authorization Act of 1998), provides that no person in the United States may act as an ocean transportation intermediary (OTI) unless that person holds a license issued by the Commission. The Commission shall issue an OTI license to any person that the Commission determines to be qualified by experience and character to act as an OTI. Further, no person may act as an OTI unless that person furnishes a bond, proof of insurance, or other surety in a form and amount determined by the Commission to ensure financial responsibility. The Commission has implemented the Act's OTI requirements in regulations contained in 46 CFR part 515, including financial responsibility Forms FMC–48, FMC–67, FMC–68, and FMC–69, Optional Rider Forms FMC–48A and FMC–69A, its related license application Form FMC–18, and the related foreign-based unlicensed NVOCC registration/renewal Form FMC–65.

Type of Request: Reinstatement, with changes of a previously approved collection for which approval has expired.

Proposed Changes: The proposed changes to the collection reflect proposed changes to Part 515 in a recent rulemaking, which include: (a) Removing optional paper application process and related reference to fee amounts; (b) clarifying language specifying who can be the Qualifying Individual in a partnership between entities other than individuals; (c) updating description of processes regarding renewals, bonds, and terminations; (d) expanding the types of applications subject to direct Commission review to include applicants employing the same officers, managers, or members of an OTI whose license was revoked or denied within the previous three years; (e) clarifying that sureties provide the organization number of OTIs with claim details for registered NVOCCs; (f) adding the submission of Form FMC–1 prior to being licensed; and (g) deleting reference to availability of the Regulated Person's Index (RPI) upon request.

Most of the proposed changes seek to streamline licensing, registration, renewal, and termination processes so that the Commission and licensees and registrants can receive and transmit

documents electronically; remove references to paper application and registration forms on the basis that no requests for waivers were received; and assist carriers in verifying an NVOCC's compliance with OTI licensing, tariff, and financial responsibility requirements by adding the requirement that Form FMC–1 be submitted prior to issuance of an OTI license. Electronic filing of applications, registrations, and financial responsibility documents reduces cost to OTIs and the Commission and facilitates Commission review and issuance of OTI licenses and registrations. The Commission currently issues OTI licenses upon receipt of evidence of financial responsibility. Licensees that are NVOCCs must publish a tariff and notify the Commission using Form FMC–1, prior to commencing NVOCC service. The proposed change to issue an NVOCC OTI license upon receipt of financial responsibility and Form FMC–1 will assist common carriers in determining an NVOCC's compliance with the OTI licensing, tariff, and financial responsibility requirements. Foreign-registered NVOCCs submit a Form FMC–65, Form FMC–1, and evidence of financial responsibility to the Commission prior to commencing NVOCC service. The Commission is clarifying that sureties provide the organization number of OTIs with claim details for registered NVOCCs. The sureties currently provide similar identifying information for licensed OTIs. Data contained in the RPI can be downloaded at no cost from the Commission's website, and therefore the Commission is proposing to delete reference of the availability of the RPI.

Purpose: The Commission uses information obtained under this part and through Form FMC–18 to determine the qualifications of OTIs and their compliance with the Act and regulations and to enable the Commission to discharge its duties under the Act by ensuring that OTIs maintain acceptable evidence of financial responsibility. If the collection of information were not conducted, there would be no basis upon which the Commission could determine if applicants are qualified for licensing. The Commission would also not be able to effectively assess the compliance of foreign-based unlicensed NVOCCs without the required registration information.

Frequency: This information is collected when applicants apply for a license or registration, complete the triennial renewal, or when existing licensees or registrants change certain information in their application forms.

Type of Respondents: The types of respondents are persons desiring to obtain or maintain a license or registration to act as an OTI. Under the Act, OTIs may be either an ocean freight forwarder, a non-vessel-operating common carrier, or both.

Number of Annual Respondents: The Commission estimates a potential annual respondent universe of 6,475 entities.

Estimated Time per Response: The time per response to complete application Form FMC–18 averages 2 hours and to complete the triennial renewal is 10 minutes. The time to complete a financial responsibility form averages 20 minutes. The time to complete Form FMC–65 to submit or renew a registration as a foreign-based unlicensed NVOCC averages 10 minutes.

Total Annual Burden: The Commission estimates the total annual burden at 3,941 hours.

Secretary.

Title: 46 CFR part 535—Ocean Common Carrier and Marine Terminal Operator Agreements Subject to the Shipping Act of 1984.

OMB Approval Number: 3072-0045.

Abstract: Section 4 of the Shipping Act of 1984, 46 U.S.C. 40301(a)-(c), identifies certain agreements by or among ocean common carriers (carriers) and marine terminal operators (MTOs) that fall within the jurisdiction of that Act. Section 5 of the Act, 46 U.S.C. 40302, requires that carriers and MTOs file those agreements with the Federal Maritime Commission. Section 6 of the Act, 46 U.S.C. 40304, 40306, and 41307(b)-(d), specifies the Commission actions that may be taken with respect to filed agreements, including requiring the submission of additional information. Section 15 of the Act, 46

U.S.C. 40104, authorizes the Commission to require that carriers and MTOs, among other persons, file periodic or special reports. Requests for additional information and the filing of periodic or special reports are meant to assist the Commission in fulfilling its statutory mandate of overseeing the activities of the ocean transportation industry. These reports are necessary so that the Commission can monitor agreement parties' activities to determine how or if their activities will have an impact on competition.

Current Actions: There are no changes to this information collection, and it is being submitted for reinstatement purposes only.

Type of Review: Reinstatement.

Needs and Uses: The Commission staff uses the information filed by agreement parties to monitor their activities as required by the Shipping Act of 1984. Under the general standard set forth in section 6(g) of the Act, 46 U.S.C. 41307(b)(1), the Commission must determine whether filed agreements are likely, by a reduction in competition, to produce an unreasonable reduction in transportation service or an unreasonable increase in transportation cost or to substantially lessen competition in the purchasing of certain covered services. If it is shown, based on information collected under this rule, that an agreement is likely to have the foregoing adverse effects, the Commission may bring suit in the U.S. District Court for the District of Columbia to enjoin the operation of that agreement. Other than an agreement filed under section 5 of the Act, the information collected may not be disclosed to the public except as may be relevant to an administrative or judicial proceeding, and disclosure to Congress.

Frequency: This information is collected generally on a quarterly basis or as required under the rules.

Type of Respondents: The types of respondents are ocean common carriers and MTOs subject to the Shipping Act of 1984.

Number of Annual Respondents: The Commission estimates a potential annual respondent universe of 334 entities.

Estimated Time per Response: The approximate range of person hours per response, including preparation and filing, depends on its complexity, presented by category below:

Agreements and amendments not requiring form FMC-150: 6-25 hours.

Agreements and amendments requiring form FMC-150: 17-137 hours.

Terminations of Agreements: .25-.5 hours.

Filing of Agreement meeting minutes: 2-5 hours.

Filing of Monitoring Reports:

VOCC Rate Discussion Agreements: 71-120 hours.

Alliance Agreements: 60-155 hours.
Other reporting agreements: 5-75 hours.

Total Annual Burden: The Commission estimates the total annual burden at 15,972 hours.

Rachel Dickon,

Secretary.
