#### SUPPLEMENTARY INFORMATION:

##### Background

PCSFN was established as the President's Council on Youth Fitness by President Eisenhower in 1956. PCSFN currently operates under Executive Order (E.O.) 13265, amended by E.O. 13824. The Council advises the President, through the Secretary, about progress to expand and encourage youth sports participation, to promote the overall physical fitness, health, and nutrition of all Americans. The Council is the only federal advisory committee focused solely on the promotion of physical activity, fitness, sports, and nutrition.

The Office of the PCSFN works with the President's Council and, under its authority in Title XVII of the Public Health Service Act, shares the President's Council's mission to engage, educate, and empower all Americans to adopt a healthy lifestyle that includes regular physical activity and good nutrition. Through partnerships with the public, private, and non-profit sectors, the Office of the PCSFN

promotes programs and initiatives that motivate people of all ages, backgrounds, and abilities to lead active, healthy lives. The Office of the PCSFN is authorized, in conjunction with its Title XVII authorities, under section 2 of E.O. 13824 to develop a National Youth Sports Initiative (NYSI). Specifically the E.O. states, "The Secretary of Health and Human Services (Secretary), in carrying out the Secretary's responsibilities for public health and human services, shall develop a national strategy to expand children's participation in youth sports, encourage regular physical activity, including active play, and promote good nutrition for all Americans." The purpose of the NYSI is to elevate the importance of youth sports participation, as well as to increase sports participation among youth with below-average sports participation, including girls, youth with a disability or those from racial and ethnic backgrounds; as well as youth in communities with limited access to athletic facilities or recreational areas. The Office of the PCSFN solicits proposals from non-Federal private and public stakeholders who wish to collaborate on the NYSI by planning and executing sport programs, activations, and/or other activities that expand access for and inclusion of youth with below-average sports participation or those from economically distressed areas.

#### Requirements of the Collaboration

The Office of the PCSFN is seeking organizations capable of managing the development and execution of youth sports programs, activations and/or other activities (such as awareness campaigns), and identifying ways to enhance activities and participation. Approved proposals will require a co-sponsorship signed by both participants that outlines the terms and parameters of the agreement. The co-sponsorship will be in place for a period of one year from the date at which it bears all parties' signatures.

#### NYSI Projects

Proposed NYSI projects will develop and implement sport-focused programming, activations, and/or other activities that are evidence-based and result in sustainable strategies that encourage and engage youth in a range of physical activity through sports participation before, during or after the school day. The collaborating organization shall help promote the project through outreach activities that may include using social media, exhibiting at conferences, or speaking at

events. The collaborating organization shall identify and recommend ways to enhance delivery and outreach of the youth sports program/activation/activity. Upon signing the above referenced co-sponsorship, and as long as the program/activation/activity meets all requirements, the Office of the PCSFN will grant collaborating organizations the use of its logo and NYSI-branded materials to promote the project, and will highlight the NYSI project via its digital and social media platforms, as deemed appropriate. Use of Office of the PCSFN logo and NYSI-branded materials should not imply any Federal endorsement of the collaborating organization's general policies, activities, or products.

#### Eligibility for Collaborating Organizations

To be eligible, a requester shall: (1) Have a demonstrated interest in, understanding of, and experience with managing the development and execution of fun and engaging youth sports programs, activations and/or other activities related to promoting the benefits and importance of youth sports participation; (2) participate substantively in the proposed NYSI project (not just provide funding or logistical support); (3) have an organizational or corporate mission that is aligned with the mission of PCSFN and the Department; and (4) agree to sign a co-sponsorship with the Office of the PCSFN which will set forth the details of the NYSI project activity including the requirements that any fees raised should not exceed the collaborating organization's costs, and fees collected by the collaborating organization shall be limited to the amount necessary to cover the collaborating organization's related operating expenses. Collaborating organizations are solely responsible for collecting and handling any fees to cover their costs.

The collaborating organization shall furnish the necessary personnel, materials, services, and facilities to administer the proposed NYSI project. These duties will be determined and outlined in a co-sponsorship.

#### Collaborating Organization Proposal

Each collaborating organization's proposal shall contain a description of: (1) The entity or organization; (2) its background in managing the development and execution of fun and engaging youth sports programs, activations and/or other activities related to promoting the benefits and importance of youth sports participation; (3) its proposed

involvement in the NYSI project; and (4) the proposed project implementation plan with a timeline.
