

middle-aged male, three young adult males, two middle-aged females, three young-middle adult females, one young adult female, one female 17 to 18 years old, and one child 11 to 12 years old (Burial Project 3362). No known individuals were identified. The 101 associated funerary objects are eight beads, 17 buttons, six fabric scraps, 10 fragments of a bone object, three leather belts (partial), four shoe soles/fragments, one lead bullet, two coffin handles (one partial), one coffin lace, one coffin plaque fragment, 26 square cut nails, two screws, 14 fragments of coffin wood, one iron brace, one iron bracket, and four ceramic sherds.

Based on the presence of square cut nails, the site is roughly dated to A.D. 1800–1900. Graves with Prosser buttons post-date 1840, while the burial with the mass-produced coffin handle likely dates between 1860 and 1880. A European-tradition burial position (supine and extended) in wooden coffins and the mix of ancestry apparent from osteological analysis lend support to the identification of this site as the burial ground of a small French and Native American community mentioned in a county history as having emerged in the 1850s. Not all individuals excavated from this cemetery were identified as Native American. Four individuals were identified as Native American through facial morphology and cranial metrics. Two individuals, a young adult male and female, were determined to have African American ancestry, possibly with Native American admixture, based on cranial metrics and dental morphology. Two individuals, a young adult male and the 11- to 12-year-old child, were determined to be Euroamerican based on facial and dental morphology. Ancestry could not be determined osteologically for the four individuals whose crania were not present, however, after discussion with tribal representatives, they are considered to be Native American. The *Past and Present of Woodbury County* (Constant R. Marks, 1904) does not specify the tribal affiliation of all the individuals living in the area, but one household included a daughter of War Eagle, and the Sioux and Dakota are mentioned.

Determinations Made by the Office of the State Archaeologist Bioarchaeology Program

Officials of the Office of the State Archaeologist Bioarchaeology Program have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of ten

individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the 101 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and The Tribes.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Dr. Lara Noldner, Office of the State Archaeologist Bioarchaeology Program, University of Iowa, 700 S Clinton Street, Iowa City, IA 52242, telephone (319) 384–0740, email lara-noldner@uiowa.edu, by July 5, 2019. Notice of Inventory Completion: U.S. Department of the Interior, National Park Service, Petrified Forest National Park, Petrified Forest, AZ; Correction

AGENCY: National Park Service, Interior.

ACTION: Notice; correction.

SUMMARY: The U.S. Department of the Interior, National Park Service, Petrified Forest National Park has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and associated funerary

objects and present-day Indian Tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to Petrified Forest National Park. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian Tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Petrified Forest National Park at the address in this notice by July 5, 2019.

ADDRESSES: Brad Traver, Superintendent, Petrified Forest National Park, Box 2217, Petrified Forest, AZ 86028, telephone (928) 524–6228 Ext. 225, email brad_traver@nps.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the U.S. Department of the Interior, National Park Service, Petrified Forest National Park, Petrified Forest, AZ. The human remains and associated funerary objects were removed from Petrified Forest National Park, Apache and Navajo Counties, AZ.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the Superintendent, Petrified Forest National Park.

This notice corrects the minimum number of individuals and number of associated funerary objects reported in two previously published notices: Notice of Inventory Completion (80 FR 23573–23574, April 28, 2015); and corrected Notice of Inventory Completion (80 FR 32602–32603, June 9, 2015). This notice replaces both the original Notice of Inventory Completion of April 28, 2015 and the corrected Notice of Inventory Completion of June 9, 2015. A re-assessment of human remains previously determined to be

culturally unidentifiable resulted in determinations of cultural affiliation. The additional associated funerary objects were discovered during preparation for repatriation. Transfer of control of the items in this correction notice has not occurred.

History and Description of the Remains

In 1933–1934 human remains representing, at minimum, one individual were removed from AZ Q:1:23 in Navajo County, AZ, during legally authorized activities to restore the site architecture and interpret the site for visitors. The human remains are in the physical custody of the Museum of Northern Arizona, Flagstaff, AZ. No known individuals were identified. No associated funerary objects are present.

In 1953, human remains representing, at minimum, six individuals were removed from AZ Q:1:3 in Apache County, AZ, by Fred Wendorf as part of his doctoral research at Harvard University. The human remains and associated funerary objects are in the physical custody of the Museum of Northern Arizona (MNA) in Flagstaff, AZ. No known individuals were identified. The 2,201 associated funerary objects are 13 pottery bowls, one mineral (galena), six pottery jars (some fragmentary), 2,083 shell beads, one stone pendant, two stone scrapers, one shell pendant, 25 basket fragments, one blanket, and 68 pottery sherds.

In 1967, human remains representing, at minimum, three individuals were removed from AZ Q:1:22 in Apache County, AZ, during legally authorized excavations conducted by Calvin Jennings of the Museum of Northern Arizona. The human remains are in the physical custody of the Museum of Northern Arizona, Flagstaff, AZ. No known individuals were identified. No associated funerary objects are present.

In 1968, human remains representing, at minimum, one individual were removed from AZ Q:1:3 in Apache County, AZ, by the Chief Naturalist at Petrified Forest National Park during regular site monitoring. The human remains are in the physical custody of the Museum of Northern Arizona, Flagstaff, AZ. No known individuals were identified. No associated funerary objects are present.

In 1985, human remains representing, at minimum, one individual were removed from AZ Q:1:58 in Apache County, AZ, during legally authorized excavations. No known individuals were identified. The two associated funerary objects are one pottery bowl and one charcoal sample.

In 1988, human remains representing, at minimum, two individuals were removed from AZ Q:1:226 in Navajo County, AZ, during legally authorized

archeological survey and site recordation. No known individuals were identified. The 11 associated funerary objects are two pottery bowls, three pottery jars, and six shell beads.

Archeological site context and types of funerary objects suggest that all five sites were occupied by ancestral Puebloan peoples. Ethnographic and archeological evidence, including burial orientation, body position, and the type and placement of the associated funerary objects, indicates that the mortuary practices of these ancestral Puebloan peoples correspond closely with those of the Hopi Tribe of Arizona and the Zuni Tribe of the Zuni Reservation, New Mexico.

Determinations Made by Petrified Forest National Park

Officials of Petrified Forest National Park have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 14 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the 2,214 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Hopi Tribe of Arizona and the Zuni Tribe of the Zuni Reservation, New Mexico.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Brad Traver, Superintendent, Petrified Forest National Park, Box 2217, Petrified Forest, AZ 86028, telephone (928) 524–6228 Ext. 225, email brad_traver@nps.gov, by July 5, 2019. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Hopi Tribe of Arizona and the Zuni Tribe of the Zuni Reservation, New Mexico may proceed.

Petrified Forest National Park is responsible for notifying The Consulted Tribes and The Invited Tribes that this notice has been published.
