§§ 49.4166 through 49.4168). These records and reports are necessary for the EPA Administrator (or the tribal agency if delegated), for example, to: (1) Confirm compliance status of stationary sources; (2) identify any stationary sources not subject to the requirements and identify stationary sources subject to the regulations; and (3) ensure that the stationary source control requirements are being achieved. All information submitted to us pursuant to the recordkeeping and reporting requirements for which a claim of confidentiality is made is safeguarded according to the agency policies set forth in 40 CFR part 2, subpart B.

Form Numbers: None.

Respondents/affected entities: Owners or operators of oil and natural gas facilities.

Respondent's obligation to respond: Mandatory (42 U.S.C. 7414).

Estimated number of respondents: 7,326 (total).

Frequency of response: On occasion, annually.

Total estimated burden: 112,000 hours (per year). Burden is defined at 5 CFR 1320.3(b)

Total estimated cost: \$24,900,000 (per year), includes \$8,470,000 annualized capital or operation and maintenance costs.

Changes in Estimates: There is likely an increase of 67,500 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. A burden, as defined by 5 CFR 1320.3(b), is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for the EPA. The increase in total estimated respondent burden hours is due to the anticipated industry growth projected to occur over the next three-year period of this ICR. The increase in labor costs from the most-recently approved ICR is due to adjustments in increased labor rates. Also, the number of respondents has been updated to reflect the new estimated increased number of respondents since the approval of the prior ICR. Lastly, as a result of these increases and adjusting to 2018 dollars, the Average Annual Capital/Startup Costs and Total Operations & Maintenance Costs have both increased from the most-recently approved ICR.

Dated: May 30, 2019.

Acting Regional Administrator, EPA Region 8.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. What should I consider as I prepare my comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at *http://www.epa.gov/dockets/comments.html.*

II. What action is the Agency taking?

This notice announces receipt by EPA of requests from registrants to cancel certain pesticide products and amend product registrations to terminate certain uses registered under FIFRA section 3 (7 U.S.C. 136a) or 24(c) (7 U.S.C. 136v(c)). The affected products and the registrants making the requests are identified in Tables 1–3 of this unit. Unless a request is withdrawn by the registrant or if the Agency determines that there are substantive comments that

_

warrant further review of this request, EPA intends to issue an order in the **Federal Register** canceling and amending the affected registrations.

III. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or

2. The EPA Administrator determines that continued use of the pesticide

would pose an unreasonable adverse effect on the environment.

The registrants listed in Table 3 of Unit II have not requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 180day comment period on the proposed requests.

IV. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation or use termination should submit the withdrawal in writing to the person listed under FOR FURTHER INFORMATION CONTACT. If the products have been subject to a previous cancellation or termination action, the effective date of cancellation or termination and all other provisions of any earlier cancellation or termination action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the requests for voluntary cancellation and amendments to terminate uses are granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to these requests for cancellation of product registrations and for amendments to terminate uses, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Tables 1 and 2, of Unit II.

For voluntary product cancellations, identified in Table 1 of Unit II, registrants will be permitted to sell and distribute existing stocks of voluntarily canceled products for 1 year after the effective date of the cancellation, which will be the date of publication of the cancellation order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the products identified in Table 1 of Unit II, except for export consistent with FIFRA section 17 (7 U.S.C. 1360) or for proper disposal.

Once EPA has approved product labels reflecting the requested amendments to terminate uses, identified in Table 2 of Unit II, registrants will be permitted to sell or distribute products under the previously approved labeling for a period of 18 months after the date of **Federal Register** publication of the cancellation order, unless other restrictions have been imposed. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products and products whose labels include the terminated uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products and terminated uses.

Authority: 7 U.S.C. 136 et seq.

Dated: May 23, 2019.

Director, Information Technology and Resources Management Division, Office of Pesticide Programs.

Elimination of Obligation To File Broadcast Mid-Term Report (Form 397)

AGENCY: Federal Communications Commission. **ACTION:** Notice.

SUMMARY: In this document, the Federal Communications Commission (Commission or FCC) announces that the Office of Management and Budget (OMB) has approved the nonsubstantive modifications stemming from the Commission's Elimination of Obligation to File Broadcast Mid-Term Report Order (*Order*). This document is consistent with the *Order*, which stated that the Commission would publish a document in the **Federal Register** announcing the effective date of those changes and the elimination of FCC Form 397.

DATES: The changes take effect June 5, 2019.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Jonathan Mark, *Jonathan.Mark@fcc.gov*, of the Media Bureau, Policy Division, (202) 418–3634. Direct press inquiries to Janice Wise at (202) 418–8165.

SUPPLEMENTARY INFORMATION:

Synopsis

On February 14, 2019, the Federal Communications Commission adopted in the above referenced proceeding a Report and Order (Order) to eliminate the Broadcast Mid-Term Report (Form 397).¹ Because the information collected in the Form 397 is or will be otherwise available via broadcasters' online public inspection files, the Commission has found that the requirement to file Form 397 is outdated and unnecessary. EEO staff will instead rely on publicly available information in its statutorilyrequired mid-term reviews of broadcasters' equal employment opportunity practices. On May 15, 2019, a copy of the Order was published in the **Federal Register**² and the Commission received OMB approval to eliminate Form 397. Pursuant to the Order, the elimination of Form 397 will become effective upon publication of this notice in the Federal Register.
