

additional time to develop its solid waste management program, which EPA believes has now occurred.

The EPA has continued to work with the USVI both on its day-to-day landfill operation practices and the development of appropriate solid waste regulations. In addition, in 2004 the USVI established the Waste Management Authority and in recent years has pursued various efforts to improve its solid waste management program. Also, scheduling the work for the final closure of both the Anguilla and Bovoni landfills is now under the supervision of a federal judge and the Department of Justice, pursuant to federal Consent Decrees, which became effective in 2013 and 2014.

The USVI submitted program application material to EPA in 2008, and in 2017 and 2018 submitted additional information that EPA requested. EPA has reviewed all relevant materials concerning the USVI's MSWLF program, including revised solid waste regulations, and has made a tentative determination that all portions of the U.S. Virgin Islands' MSWLF permit program now are adequate to assure compliance with the revised Federal Criteria, except that correction of a technical/typographical error in a section of the Virgin Islands solid waste regulations needs to be made.

The USVI Attorney General has certified that the current laws and regulations, which are part of the Virgin Islands solid waste management program, are in full force and effect, and that an appropriate correction to the solid waste regulations is being processed. The Attorney General will update its certification when the correction of the regulations has been officially promulgated.

The USVI application materials for this program adequacy determination are available for public review in the locations described in the **ADDRESSES** section of this document.

### C. Comment Period/Final Determination

EPA will consider all public comments received during the public comment period and public hearings, including any comments offered by the Virgin Islands government, and make a final determination on whether to approve the Virgin Islands' RCRA Subtitle D MSWLF Permit Program. EPA will give notice of its final determination in the **Federal Register**. The document will include a summary of the reasons for the final determination, and a summary of responses to all major comments

received at the public hearings and during the public comment period.

### Fisheries of the Northeastern United States; Framework Adjustment 13 to the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** NMFS proposes measures to approve and implement Framework Adjustment 13 to the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan. This action proposes to establish a 5-year rebuilding program for Atlantic mackerel, set 2019-2021 Atlantic mackerel specifications and a river herring and shad cap for the Atlantic mackerel fishery, modify the Mid-Atlantic Fishery Management Council's risk policy, and modify in-season closure measures. This action is necessary to prevent overfishing and rebuild the Atlantic mackerel stock based on a recent stock assessment that found the Atlantic mackerel stock to be overfished and subject to overfishing. The intended effect of this rule is to sustainably manage the Atlantic mackerel fishery and achieve optimum yield on a continuing basis.

**DATES:** Public comments must be received by July 8, 2019.
