

DEPARTMENT OF COMMERCE**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Committee for the Implementation of Textile Agreements.

Title: Interim Procedures for Considering Requests under the Commercial Availability Provision of the United States—Peru Trade Promotion Agreement Implementation Act.

Form Number(s): N/A.

OMB Control Number: 0625–0265.

Type of Request: Regular submission.

Number of Respondents: 16 (10 for Requests; 3 for Responses; 3 for Rebuttals).

Average Hours per Response: 8 hours per Request; 2 hours per Response; and 1 hour per Rebuttal.

Burden Hours: 89.

Needs and Uses: The United States and Peru negotiated the U.S.-Peru Trade Promotion Agreement (the Agreement), which entered into force on February 1, 2009. Subject to the rules of origin in Annex 4.1 of the Agreement, pursuant to the textile provisions of the Agreement, a fabric, yarn, or fiber produced in Peru or the United States and traded between the two countries is entitled to duty-free tariff treatment. Annex 3-B of the Agreement also lists specific fabrics, yarns, and fibers that the two countries agreed are not available in commercial quantities in a timely manner from producers in Peru or the United States. The items listed in Annex 3-B are commercially unavailable fabrics, yarns, and fibers. Articles containing these items are entitled to duty-free or preferential treatment despite containing inputs not produced in Peru or the United States.

The list of commercially unavailable fabrics, yarns, and fibers may be changed pursuant to the commercial availability provision in Chapter 3, Article 3.3, Paragraphs 5–7 of the Agreement. Section 203(o) of the Act implements the commercial availability provision of the Agreement. Under this provision, interested entities from Peru or the United States have the right to request that a specific fabric, yarn, or fiber be added to, or removed from, the list of commercially unavailable fabrics, yarns, and fibers in Annex 3-B.

Section 203(o) of the Act provides that the President may modify the list of

fabrics, yarns, and fibers in Annex 3-B by determining whether additional fabrics, yarns, or fibers are not available in commercial quantities in a timely manner in the United States or Peru, and that the President will issue procedures governing the submission of requests and providing an opportunity for interested entities to submit comments. The President delegated the responsibility for publishing the procedures and administering commercial availability requests to CITA, which issues procedures and acts on requests through the U.S. Department of Commerce, Office of Textiles and Apparel (OTEXA) (*See* Proclamation No. 8341, 74 FR 4105, Jan. 22, 2009). Interim procedures to implement these responsibilities were published in the **Federal Register** on August 14, 2009. (*See* Interim Procedures for Considering Requests Under the Commercial Availability Provision of the United States-Peru Trade Promotion Agreement Implementation Act and Estimate of Burden for Collection of Information, 74 FR 41111, Aug. 14, 2009) (Commercial Availability Procedures).

The intent of the Commercial Availability Procedures is to foster the use of U.S. and regional products by implementing procedures that allow products to be placed on or removed from a product list, on a timely basis, and in a manner that is consistent with normal business practice. The procedures are intended to facilitate the transmission of requests; allow the market to indicate the availability of the supply of products that are the subject of requests; make available promptly, to interested entities and the public, information regarding the requests for products and offers received for those products; ensure wide participation by interested entities and parties; allow for careful review and consideration of information provided to substantiate requests and responses; and provide timely public dissemination of information used by CITA in making commercial availability determinations.

CITA must collect certain information about fabric, yarn, or fiber technical specifications and the production capabilities of Peruvian and U.S. textile producers to determine whether certain fabrics, yarns, or fibers are available in commercial quantities in a timely manner in the United States or Peru, subject to Section 203(o) of the Act.

Affected Public: Business or other for-profit.

Frequency: Varies.

Respondent's Obligation: Voluntary.
