Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties regarding our *Preliminary Results*, we made certain changes to the preliminary weighted-average margins for NEXTEEL and SeAH.⁶

Duty Absorption

In the *Preliminary Results*, we preliminarily found that antidumping duties were absorbed on all U.S. sales of subject merchandise that were exported by SeAH.⁷ However, because NEXTEEL did not sell merchandise to the United States through an affiliated importer, within the meaning of section 751(a)(4) of the Act, we did not make a preliminary duty absorption finding for NEXTEEL.⁸

We have received no further information regarding this issue for the final results. Therefore, for the final results, we continue to find that antidumping duties have been absorbed on all U.S. sales of subject merchandise that were exported by SeAH.

Determination of No Shipments

As noted in the *Preliminary Results*, we received a no shipment claim from HiSteel Co., Ltd. (HiSteel) and preliminarily determined that HiSteel had no shipments during the POR.⁹ We received no comments from interested parties with respect to this claim. Therefore, because the record indicates that HiSteel had no entries of subject merchandise to the United States during the POR, we continue to find that HiSteel had no shipments during the POR.

Disclosure of Calculations

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in

¹⁰ This rate is based on the weighted-average of the margins calculated for those companies selected for individual review using the publicly-ranged U.S. quantities. Because we cannot apply our normal methodology of calculating a weighted-average margin due to requests to protect business proprietary information, we find this rate to be the best proxy of the actual weighted-average margin determined for the mandatory respondents. See *Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews, Final Results of Changed-Circumstances Review, and Revocation of an Order in Part*, 75 FR 53661, 53663 (September 1, 2010); see also Memorandum, "Calculation of the Review-Specific Average Rate for the Preliminary Results," dated concurrently with this notice.

this proceeding, in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act, and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

Pursuant to 19 CFR 351.212(b)(1), NEXTEEL reported the entered value of its U.S. sales such that we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. SeAH did not report actual entered value for all of its U.S. sales such that we calculated entered value and determined the importer-specific *ad valorem* assessment rates as described above for NEXTEEL. Where either the respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For the companies which were not selected for individual review, we will assign an assessment rate equal to each company's weighted-average dumping margin identified above. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.¹¹

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be equal to the weighted-average dumping margin that is established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash

deposit rate will be zero; (2) for previously investigated companies not listed above, including the company for Commerce has determined had no shipments in these final results, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the cash deposit rate established for the most recently completed segment for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 4.38 percent, the all-others rate established in the LTFV investigation.¹² These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Postponement of Preliminary Determinations

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in an LTFV investigation within 140 days after the date on which Commerce initiated the investigation. However, section 733(c)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) The petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating and determines that (i) the investigation is extraordinarily complicated, and that (ii) additional time is necessary to make a preliminary determination.
