POLICY JUSTIFICATION

Korea—SM-2 Block IIIB

The Republic of Korea (ROK) has requested to buy up to ninety-four (94) rounds of SM-2 Block IIIB Standard Missiles and twelve (12) MK 97 MOD 0 Guidance Sections for SM-2 Block IIIB. Also included is technical assistance: training and training equipment; publication and technical data; and related logistics support, and other related elements of logistics and program support. The total estimated program cost is \$313.9 million.

This proposed sale will support the foreign policy and national security objectives of the United States by meeting the legitimate security and defense needs of one of the closest allies in the INDOPACOM Theater. The Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region.

The ROK Navy intends to use the SM-2 Block IIIB to supplement its existing inventory. The proposed sale will provide a defensive capability while enhancing interoperability with U.S. and other allied forces. The Republic of Korea will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Raytheon Missile Systems Company, Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the Purchaser and the prime contractor.

Implementation of the proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the ROK. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis in conjunction with program technical oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 19–26

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The SM-2 Block IIIB Standard Missile consists of a Guidance Unit, Dual Thrust Rocket Motor, Steering Control Unit, and Telemeter with omnidirectional antenna. The proposed sale will result in the transfer of sensitive technology and information as well as classified and unclassified defense equipment and technical data. The hardware and installed software is classified SECRET. Training documentation is classified CONFIDENTIAL. Shipboard operational/tactical employment is generally CONFIDENTIAL, but includes some SECRET data. The all-up round Standard Missiles are classified CONFIDENTIAL. Certain operating frequencies and performance characteristics are classified SECRET.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used

to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient government can provide substantially the same degree of protection for the technology being released as the U.S. Government. This sale supports the U.S. foreign policy and national security objectives as outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Korea.

POLICY JUSTIFICATION

United Arab Emirates (UAE)— Patriot Missile System and Related Support Equipment

The Government of the United Arab Emirates has requested to buy up to four hundred fifty-two (452) Patriot Advanced Capability 3 (PAC-3) Missiles Segment Enhanced (MSE). Also included are tools and test equipment, support equipment, publications and technical documentation, personnel training and training equipment, spare and repair parts, facility design, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics, sustainment and program support. The estimated cost is \$2.728 billion.

This proposed sale will support the foreign policy and national security of the United States by helping to improve

the security of an important ally which has been, and continues to be, a force for political stability and economic progress in the Middle East. This sale is consistent with U.S. initiatives to provide key allies in the region with modern systems that will enhance interoperability with U.S. forces and increase security.

The proposed sale will enhance the UAE's capability to meet current and future aircraft and missile threats. The UAE will use the capability as a deterrent to regional threats and to strengthen its homeland defense. The UAE will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of these missiles will not alter the basic military balance in the region.

The prime contractor for the PAC-3 System will be Raytheon Corporation, Andover, Massachusetts, and Lockheed-Martin, Dallas, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed program will require additional contractor representatives to travel to the UAE. It is not expected additional U.S. Government personnel will be required in country for an extended period of time.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 19-37

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The PATRIOT Air Defense System contains classified CONFIDENTIAL hardware components, SECRET tactical software and critical/sensitive technology. The Patriot Advanced Capability -3 (PAC-3) Missile Segment Enhancement (MSE) hardware is classified CONFIDENTIAL and the associated launcher hardware is UNCLASSIFIED. The PAC-3 MSE is a high velocity, hit-to-kill, surface-to-air missile that provides critical air and missile defense by intercepting and destroying Tactical Ballistic Missiles (TBM), Air-Breathing Threats (ABT), cruise missiles, and Unmanned Aerial Systems (UAS).

2. The PAC-3 MSE sensitive/critical technology is primarily in the area of design and production know-how and primarily inherent in the design, development and/or manufacturing data related to certain components. The list of components is classified CONFIDENTIAL.

3. Information on system performance capabilities, effectiveness, survivability, missile seeker capabilities, select software/software documentation and test data are classified up to and including SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that the Government of the UAE can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of

the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to the United Arab Emirates.
