All acts and transactions under the KTTT Liquor Ordinance shall be in conformity with the laws of the Tribe and the laws of the State to the extent required by 18 U.S.C. § 1161 and with all Federal laws regarding liquor in Indian Country.

SUPPLEMENTARY INFORMATION:

Introduction

The Florida Coastal Access Project was selected for funding and implementation in Phase V of DWH early restoration. In the 2011 *Framework Agreement for Early Restoration Addressing Injuries Resulting from the Deepwater Horizon Oil Spill* (Framework Agreement), BP agreed to provide to the Trustees up to \$1 billion toward early restoration projects in the Gulf of Mexico to address injuries to natural resources caused by the DWH oil spill. The Framework Agreement represented a preliminary step toward the restoration of injured natural resources and was intended to expedite the start of restoration in the Gulf in advance of the completion of the injury assessment process. In the five phases of the early restoration process, the Trustees selected, and BP agreed to fund, a total of 65 early restoration projects expected to cost a total of approximately \$877 million, including the Florida Coastal Access Project for approximately \$45.4 million. The Trustees selected these projects after public notice, public meetings, and consideration of public comments.

The Consent Decree, as discussed in the "Background" section below, terminated and replaced the Framework Agreement and provided that the Trustees shall use remaining early restoration funds as specified in the early restoration plans and in accordance with the Consent Decree. The Trustees have determined that decisions concerning any unexpended early restoration funds are to be made
