SUPPLEMENTARY INFORMATION:

Background

Construction of Primary Pedestrian Barrier in the Rio Grande Valley

U.S. Customs and Border Protection (CBP) protects the nation's borders from terrorism, human trafficking, drug smuggling, illegal migration, unsafe/

illegal goods, and agricultural pests, while facilitating the flow of legitimate travel and trade. CBP advances its mission by integrating modern technology, deploying highly-trained law enforcement officers, and leveraging public and private sector partnerships.

The Rio Grande Valley's (RGV) varied terrain includes areas of dense vegetation, agricultural land, and fast vanishing points that can be easily exploited by smugglers, illegal aliens, and traffickers. CBP has identified priority areas in the RGV that require additional resources, including new primary pedestrian barrier. CBP's preferred design for pedestrian barrier in Starr County is a bollard wall system that includes all-weather roads, surveillance systems, lighting, a 150-foot enforcement zone, and other supporting infrastructure. These resources will help CBP achieve operational control of the southern border commensurate with Executive Order 13767.¹

Section 232 of the Consolidated Appropriations Act, 2019 (Pub. L. 115-141, 132 Stat. 348 (Feb. 15, 2019) (the "Consolidated Appropriations Act")) makes funds available for the construction of physical barriers in RGV, including within the Texas cities of Roma, Escobares, La Grulla, Rio Grande City, and the census-designated place of Salineno, Texas (the Affected Areas). The Consolidated Appropriations Act requires that CBP utilize barrier designs that are operationally effective and that have been deployed as of the date of the Consolidated Appropriations Act of 2017 (Pub. L. 115-31, 131 Stat. 135 (May 5, 2017)).

The proposed action in the Affected Areas is one of a number of border infrastructure projects in the RGV that CBP has proposed, including approximately 13 miles of levee wall presently under construction in Hidalgo, County, Texas, funded by Congress through the Consolidated Appropriations Act, 2018 (Pub. L. 115-141, 132 Stat. 348 (March 23, 2018)). CBP collected public feedback for these projects from September 2018 to November 2018. Information gathered from this effort is used to inform CBP on potential impacts to the environment, culture, quality of life, and commerce. A Stakeholder Feedback Report that summarizes the feedback collected from September 2018 to November 2018 is available on CBP's website: <http://www.cbp.gov/about/environmental->
