II. Background Information and Regulatory History

On April 23, 2019, the City of North Charleston notified the Coast Guard that it would be conducting a fireworks display from 9 p.m. to 10 p.m. on July 4, 2019. The fireworks are to be launched from a barge along the bank of the Cooper River at River Front Park in North Charleston, SC. Hazards from fireworks displays include accidental discharge of fireworks, dangerous projectiles, and falling hot embers or other debris. In response to their request, on June 4, 2019, the Coast Guard published a notice of proposed rulemaking (NPRM) titled "Safety Zone; City of North Charleston Fireworks, North Charleston, SC" (84 FR 25721). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this fireworks display. During the comment period that ended June 19, 2019, we received no comments.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be contrary to public interest because we must establish this
