#### Request for Comment; Notice of Development of Gross Domestic Product by County Statistics

**AGENCY:** Bureau of Economic Analysis, Department of Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** The Bureau of Economic Analysis (BEA) is soliciting comments from the public on its new prototype Gross Domestic Product by County statistics, including comments on the methodology, presentation, granularity,

and scope. Following the public comment period, BEA will incorporate feedback, finalize the methodology and related materials, and begin publishing this data series as an official series annually. Gross Domestic Product by County statistics will provide information on the economic activity generated in each of the nation's counties or county equivalents.

**DATES:** Comments must be received no later than July 29, 2019.

**ADDRESSES:** You may submit comments via email to [gdpbycounty@bea.gov](mailto:gdpbycounty@bea.gov) or via U.S. Mail addressed to Mauricio Ortiz, Chief, Regional Income Division, Bureau of Economic Analysis, Department of Commerce, 4600 Silver Hill Road (BE-55), Washington, DC 20233. Comments sent by any other method or after the comment period may not be considered. All comments are a part of the public record.

**FOR FURTHER INFORMATION CONTACT:**

Mauricio Ortiz, Chief, Regional Income Division, Bureau of Economic Analysis, Department of Commerce, 4600 Silver Hill Road (BE-55), Washington, DC 20233; phone: (301) 278-9269 or via email to [Mauricio.Ortiz@bea.gov](mailto:Mauricio.Ortiz@bea.gov).

**SUPPLEMENTARY INFORMATION:** Statistics measuring county gross domestic product (GDP)—the value of goods and services produced there—will help create a more complete picture of the geographic distribution of U.S. economic activity. The information will help policymakers and regional planners promote local economic growth and direct resources to the places most in need. The statistics will be a new tool to help businesses make decisions about investment and growth and to help residents better understand their county's economic health. The data can be used to compare the size and growth (or decline) of local economies across the country.

In July 2016, BEA released a paper, laying out a research agenda to produce GDP statistics for each of the nation's 3,113 counties or county equivalents, such as Louisiana's parishes and Alaska's boroughs. Building on that research, in December 2018 BEA released a prototype set of county GDP statistics measuring the economic performance of counties or county equivalents, covering the years 2012 through 2015. A paper published in the March 2019 issue of BEA's *Survey of Current Business* detailed the data sources and methods used to calculate the GDP by county prototype statistics.

BEA is seeking feedback on the prototype statistics and will continue to refine its methodology and presentations before official county GDP
