

assistance providers and grantees make changes to the goals and objectives necessary to achieve the Congressional purpose of the Campus Program.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that it will take the approximately 100 respondents (Campus Program grantees) approximately 30 minutes to complete a semi-annual progress report. The semi-annual progress report is divided into sections that pertain to the different types of activities in which grantees may engage. A Justice for Families Program grantee will only be required to complete the sections of the form that pertain to its own specific activities.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total annual hour burden to complete the data collection forms is 140 hours, that is 70 grantees completing a form twice a year with an estimated completion time for the form being one hour.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Emergency Planning and Community Right-to-Know Act, the Comprehensive Environmental Response, Compensation, and Liability Act, and the Clean Air Act

On June 24, 2019, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Oregon, Portland Division, in the lawsuit entitled *United States of America v. Dyno Nobel, Inc.*, Civil Action No. 3:19-cv-00984.

The Complaint initiating this matter seeks injunctive relief and civil penalties for alleged violations of the Emergency Planning and Community Right-to-Know Act, 42 U.S.C. 11004 and 11023, the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9603, and

the Clean Air Act, 42 U.S.C. 7412(r), and regulations promulgated thereunder at an ammonia plant owned and operated by Dyno Nobel, Inc., (“Dyno Nobel”) in St. Helens, Oregon. More specifically, the Complaint alleges that Dyno Nobel violated the release reporting requirements of the Comprehensive Environmental Response, Compensation and Liability Act and the Emergency Planning and Community Right-to-Know Act (“EPCRA”) in connection with two releases of anhydrous ammonia, violated EPCRA by failing to accurately report annual point source releases in its Toxic Release Inventory filings, and violated multiple provisions of the Clean Air Act’s Risk Management Program requirements.

Under the proposed Consent Decree, Dyno Nobel has agreed to pay a civil penalty to the United States, to file corrected Toxic Release Inventory reports, to comply with applicable reporting requirements and all applicable Risk Management Program requirements, retain a third-party auditor to audit its compliance with the foregoing requirements, and perform a Supplemental Environmental Project where Dyno will purchase specified emergency response equipment for identified local emergency response organizations.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America v. Dyno Nobel, Inc.*, D.J. Ref.
